In the mid-1960s, Ford Motor Company took the automotive world by storm with the release of its new pony car, the Ford Mustang. It was the right car for the right time, and it caught General Motors a bit by surprise. One year later, after seeing

the Mustang's enormous sales success, General Motors announced the development of its own pony-car platform, code-named "Panther," to enter the market and compete with the tremendously popular Mustang. And what a competition it became. Chevrolet Camaros and Pontiac Firebirds hit the market in the fall of 1966, and the world clamored for more of these new Mustang killers. Over the course of time, these F-Body cars became some of the most popular enthusiast cars of all time. In *The Definitive Firebird & Trans Am Guide 1967–1981*, Pontiac expert and historian Rocky Rotella examines each production year of Firebird. Production figures, option codes, running changes, model year changes and variances, rarity, collectability, interviews with engineers, and more are thoroughly covered in what is sure to be the ultimate Firebird reference book for years to come. Complementing the detail and year-by-year analysis is a combination of archival photography from the launch of these cars and beautiful color photos of original and restored examples today. Whether you are into the first generation of F-Body Pontiacs, the first Trans Ams in 1969, the early second-generation Super Duty cars, or even the wildly popular Trans Ams from the Smokey and the Bandit era, this book tells the entire story of these immensely popular cars. It is an excellent addition to any pony car, muscle car, or any enthusiast's library.

A Very Civil War is the first complete account of the important but much neglected story of Switzerland's civil war of 1847. Fought over issues similar to those of the American Civil War, the comparative "civility" of the Swiss war—there were fewer than one hundred casualties—is remarkable. Indeed, a war that might have destroyed Swiss union instead contributed to a sense of cohesion and established a firm foundation for modern Swiss society.

On the outskirts of civilization, where suburban man stumbles over nature, an untold drama is taking place. A relentless effort by present day frontiersmen to tame and overcome the inhospitable California desert. Rudy VanderLans takes us to the heart of this spectacle, where suburban elements meet vacuous space, where dubious claims of commerce stand fragile against a harsh light, where contemporary dwellers impose incongruous notions of luxury on a magnificent wilderness landscape. Supermarket captures the folly and the beauty of this colorful drama in all its ambiguity, with astounding photographic spreads that come at us like film, taken at slightly different angles, juxtaposed or duplicated in singularly bold symmetry. The iteration of the images so leveraged simulates a spatiality that transcends the ordinary two-dimensional page. Supermarket is a disturbingly beautiful book that takes us on a poetic journey through VanderLans' California, documenting our sometimes successful, sometimes futile attempt to transform an unfriendly environment into a bearable, happy land. Rudy VanderLans, co-founder and editor of 'Emigre' magazine, brings us inside this desert environment in small steps, taking us along the California coast heading south and then east through the built environment, setting the scene for our final destination.
