

Alice Bailey Treatise On White Magic

This volume deals with the underlying structure of occult teaching for the present era and with those vast cosmic processes reproduced through all areas of life from universe to atom. The book gives an exposition of Solar Fire, the Fire of Mind, since this is the dominant energy to be understood and controlled during this second solar system.

2013 Reprint of 1950 Third Edition. Full facsimile of the original edition, not reproduced with Optical Recognition Software. Volume One Only. The books of Alice A. Bailey, written in cooperation with a Tibetan teacher between 1919 and 1949, constitute a continuation of the Ageless Wisdom--a body of esoteric teaching handed down from ancient times in a form which is always suitable to each period.

Intended to precede and condition the coming era, the Alice A. Bailey writings offer an unparalleled spiritual approach to such subjects as the teaching on Shamballa and the Path of spiritual evolution; the spiritual Hierarchy; the new discipleship and training in meditation as a form of service; the teaching on the seven rays and the new psychology of the soul; the teaching on esoteric astrology; and the new world religion, which emphasizes the common thread of truth linking all the major world faiths. Five

volumes have been written under the overall title of "A Treatise on the Seven Rays." This sequence of books is based on the fact, the nature and the quality of the seven basic streams of energy pervading our solar system, our planet and all that lives and moves within its orbit. Of the specialized subjects presented in these books, two volumes are concerned with esoteric psychology - the first in relation to basic energy patterns and structures; the second particularly applied to the soul and the personality of man and to the working out of the Plan for humanity. Psychology is defined in Webster's Dictionary as "the science of mind," at one time considered a branch of metaphysics. Today we are more inclined to include all the conditioning subjective factors as psychological in nature - mental and emotional impulses and soul contact, to whatever degree it exists. These subjective influences constitute the whole psychological background to a man's attitudes and behaviour, and create the faculty of spiritual response. The "psyche" is, after all, the human soul, the centre of consciousness. Esoteric psychology begins with a consideration of the human being as a soul, manifesting in the form of a personality, consisting of mental, emotional and etheric/physical substance, and more or less in contact and control, depending on the stage of evolution in the personality consciousness. From the point of view of esoteric psychology, evolution is the evolution of

consciousness, by which the imbedded fragment of the soul within the personality progressively identifies its spiritual source and becomes at-one with it. The seven differentiated streams of ray energy play a significant role in this evolutionary process. A blend of five energies in a human being determine his goals, his problems, his available qualities and energy resources, and the correct method by which - according to his dominant ray influence - he may unfold his consciousness and make spiritual progress. In this volume of Esoteric Psychology many of these distinctive ray qualities and methods are given as quotations, or interpretations, of "The Old Commentary" put into poetic and symbolic words. The seven rays are shown as the Seven Creative Builders, each one imbued with purpose and power, functioning together as a synthesis in occult obedience to the purposes of our Solar Logos. Such a detailed and comprehensive study of the ray energies influencing our planetary life and all kingdoms in nature is of inestimable value to the aspirant consciously preparing himself to become of planetary service as he learns to serve and to unite with his fellowmen. A Treatise on White Magic is a book by Alice Bailey. It is considered to be among the most important by students of her writings, as it is less abstract than most, and deals with many important subjects of her works in an introductory, even programmatic fashion.

Bailey promulgated White Magic as a discipline to serve humanity. It is an esoteric text, which Bailey said was dictated telepathically by the Tibetan Master, Djwal Khul. It is offered as a "basic textbook" for the Western aspirant to initiation, and is divided into fifteen rules of magic, each one taking the reader further into the mysteries of spirituality.

Topics discussed include: how an aspirant can best prepare himself for service, the various ray types of their influences, the relationship between the macrocosm and microcosm, the spiritual, causal, astral and physical realms and their interactions, the spiritual psychology of man, The Hierarchy of Masters, esoteric groups and schools, the spiritual centers (or chakras), the occult concept of the Seven Rays, meditation work and much more. One of the main themes is that of soul control.

The scientific basis for the widely accepted ideal of the brotherhood of man rests on the fact of the interwoven etheric (or energy) structure underlying all forms in all kingdoms within the planet. It is this essential oneness which provides the conditions for intercommunication on all levels of consciousness, and which creates the possibility of simultaneous impression in many by a stream of Plan - inspired energy.

The Labours of Hercules - an astrological interpretation by Alice Bailey, gives a vivid account of the journey of the soul as it incarnates

progressively through the twelve signs of the Zodiac. The labours that Hercules is required to perform symbolise the specific challenges that face all disciples as they seek to equip themselves to better serve their fellow human beings. It is an excellent introduction to a more esoteric understanding of astrology.

The teaching on the seven rays can enable all true servers to work with greater skill and effectiveness in their chosen field of activity. As Alice Bailey wrote, a study of the rays will mean that "...we shall have a practical method of analysis whereby we can arrive at a right understanding of ourselves as ensouling entities, and at a wiser comprehension of our fellow men We can then deal more intelligently with ourselves, with our children and with our friends and associates. We shall find ourselves able to co-operate more wisely with the Plan as it is seeking expression at any particular time".

With widespread publicity concerning the near death experience, many people are now searching for a deeper understanding of death and the process of dying. Esoteric teachings on the subtle bodies and their interrelationship have much to offer to those pondering on and researching the mystery of death. Resurrection is the keynote of nature; death is not. Death is only the ante-chamber of resurrection.

This compilation from the books of Alice Bailey seeks to increase understanding of the immortal soul, addressing it's many aspects under sixty two headings. The creative nature of the Soul: On its own plane, the soul knows no separation, and the factor of synthesis governs all soul relations. The soul is occupied not only with the form that the vision of its objective may take, but with the quality or the meaning which that vision veils or hides. The soul knows the Plan; its form, outline, methods and objective are known. Through the use of the creative imagination, the soul creates; it builds thought-forms on the mental plane and objectifies desire on the astral plane. It proceeds then to externalise its thought and its desire upon the physical plane through applied force, creatively actuated by the imagination of the etheric or vital vehicle. Yet because the soul intelligence, motivated by love, it can (within the realised synthesis which governs its activities) analyse, discriminate and divide. The soul likewise aspires to that which is greater than itself, and reaches out to the world of divine ideas, and thus itself occupies a midway position between the world of ideation and the world of forms, This is its difficulty and its opportunity.

Education should be a continuous process from birth to death. It is essentially a process leading to reconciliation of the human and divine elements in the constitution of a human being. Right relationship between God and man, spirit and matter, the whole and the part, should be a prime objective of educational techniques.

The development of the intellect, while necessary, is a means to an end. The intellect should become a means of penetrating into new dimensions of thought and consciousness, and of awakening the intuitive faculty of "pure reason". Through occult meditation the gap is bridged between the threefold mind and the intuition.

True to the spirit of the all-American athlete and our society's seemingly endless pursuit of and passion for leisure activities is Sports & Recreation Fads. This readable and fascinating reference book highlights some of the most notable as well as some long-forgotten pastimes and personalities. Sporting and recreation events have thrived in the United States for more than two centuries. Just about every sport and recreation embraced from Colonial America to the present has had its faddish aspects. The fascinating introduction provides a basic understanding of the importance of fads in the development of sports and recreation. No book on sports fads would be complete without several chapters on baseball, and this exciting volume is no different--Hank Aaron's 715th home run, baseball card collecting, Mark "the Bird" Fidrych's shining season with the Detroit Tigers, Bo Jackson's double career, Jackie Robinson's success in breaking the color barrier, and Pete Rose's gambling troubles--a true slice of Americana, the

best and the worst of our favorite pastime! From the controversial people and events in professional athletics--Mohammed Ali, Joe Namath, Mike Tyson, the "battle of the sexes" between Billie Jean King and Bobby Riggs, the "Black Sox Scandal," and the Dallas Cowboys cheerleaders, to the heroes--Charles Atlas, Joe Louis, and Babe Ruth, Hoffmann and Bailey illustrate the often fickle and sometimes enduring interest that Americans have for sports figures and their games. This informative and entertaining book also examines our personal quest for fitness, our devotion to automobiling, and our love of games, including bridge, charades, crossword puzzles, Monopoly, Dungeons & Dragons, Scrabble, and Trivial Pursuit. Sports & Recreation Fads is a handy guide to our favorite leisure activities of the last 200 years.

A Treatise on White Magic is considered to be among the most important of Bailey's writings, as it is less abstract than most, and deals with many important subjects of her works in a programmatic fashion."I seek in this book to do four things, and to make appeal to three types of people. It is based, as regards its teaching, upon four fundamental postulates.

These are intended to:1. Teach the laws of spiritual psychology as distinguished from mental and emotional psychology.2. Make clear the nature of the soul of man and its systemic and cosmic relationships. This will include its group relationship as a preliminary step.3. Demonstrate the relations between the self and the sheaths which that self may use, and thus clarify public thought as to the constitution of man.4. Elucidate the problem of the supernormal powers, and give the rules for their safe and useful development." - Alice Bailey

Throughout the books of Alice Bailey we frequently come across arresting suggestions and ideas. Many of these are brought together in this book. Arranged in alphabetical

subject order they form an ideal introduction to the books as a whole. Topics include: The Ancient Mysteries, Courage, Crisis, Guidance, Joy, Mind, The New Age, Visualisation. World Glamour, the sum total of human ignorance, fear and greed, can dissipate through the clear, inclusive thinking of those in whom the soul (Christ) principle is awakening. Glamour results from a negative emotional focus. The dissipation of glamour depends on 'illuminated thinking'. Author note: Ronald C. This Overview was carefully distilled from the abridgments, and was created to be used as an overall textbook and lesson-plan by study groups. New students may find it useful as an introduction to the vast body of knowledge bequeathed to us by DK and AAB. Intermediate students may benefit from it as a reference, while advanced disciples may appreciate it as a trusted source of 'recommend reading' for their students. It is my sincere belief that the Ageless Wisdom, much of which is discussed in this book, can and will aid the world at this time of great change. With this overview, the New Age movement, presently lacking in concrete knowledge, will have a core textbook upon which to grow. I believe this is one of the Ashram's goals and is part of DK's larger plan to spread awareness of the Ageless Wisdom throughout the world, and I am honored to play a small part in these objectives. In *Unity, Love and Light*, Patrick Westfall By examining both gender and aging in this ethnography of an Indian village, Sarah Lamb forces a re-examination of major debates in feminist anthropology and contributes to the small but growing literature on aging in contemporary culture.

As Alice in Wonderland discovered, cave entrances, tunnels, spirals and mirrors can transport people to strange worlds where anything is possible. Portals investigates how we move beyond the conscious and physical world using our senses, into other realities of the spiritual and the divine. Portals looks at the techniques used to alter consciousness practised by shamans, monks and other religious specialists. These include the use of drugs, as well as drumming, chanting and meditation. The book provides a new, anthropologically-grounded perspective on the wide-ranging questions about the realities of human consciousness and mystical, spiritual and religious experience.

Occult Meditation is a book that will surprise you because of the depth in which the subject of meditation is developed, its benefits and significance in the physical and spiritual world. A book that every lover of spirituality and especially of theosophy should read. About the author: Alice Bailey (1880-1949) was an English esoteric practitioner and writer. At the age of 35, she entered the Theosophical Society center in Los Angeles (USA), at the Pacific Grove Theosophical Lodge. In 1919, Bailey (39 years old) severed her ties to the Theosophical Society and began to write texts that he claimed were dictated telepathically by a certain "Tibetan," or "D. K. . She published those texts under the title Human and Solar Initiation. There she made known the existence of the spiritual hierarchy, which Madame Blavatsky had already spread, although not in an orderly way. She later revealed that the Tibetan D.K. was the master Djwal Khul. She wrote using the teacher's name for 30 years, from 1919 until her death in 1949

The science of esoteric astrology is said to be the basic occult science of the future. Astrology is described in this book as "the science of relationships", a science which deals with those conditioning energies and forces which play through

and upon the whole field of space and all that is found within it.

A lively and stimulating resource for all first year students of human geography, this introductory Reader comprises key published writings from the main fields of human geography. Because the subject is both broad and necessarily only loosely defined, a principal aim of this book is to present a view of the subject which is theoretically informed and yet recognises that any view is partial, contingent and subject to change. The extracts selected are accessible and raise issues of method and theory as well as fact. The editors have chosen articles that not only represent main currents in the present flow of academic geography but which are also responsive to developments outside of the discipline. Their selection contains a mixture of established and recent writings and each section features a contextualizing introduction and detailed suggestions for further reading. This book contains the Fifteen Rules for Magic (for soul control), the soul, the White Magician, becoming manifest through its own inherent magical powers. The human being is essentially and inherently divine. The soul is the means whereby humanity evolves a consciousness of divinity, redeems gross matter and liberates the pure flame of spirit from the limitation of form.

To aid men and women endeavouring to prepare themselves for group service during this transitional era, the Tibetan Master, Djwhal Khul, suggested that a compilation be made of all that he had written with Alice Bailey on the Seventh Ray of Ceremonial Order. This book is the fulfilment of that wish. 2012 Reprint of 1945 Edition. Exact facsimile of the original edition, not reproduced with Optical Recognition Software. "A Treatise on White Magic" is considered to be one of her most important writings, as it is less abstract than most, and deals with many important subjects of her works in an introductory,

even programmatic fashion. It was first published in 1934 with the subtitle 'The Way of the Disciple'. She promulgated White Magic as a discipline to serve humanity. Bailey said the work was dictated telepathically by the Tibetan Master, Djwal Khul. It is offered as a "basic textbook" for the Western aspirant to initiation, and is divided into fifteen rules of magic, each one taking the reader further into the mysteries of spirituality. Topics discussed include: how an aspirant can best prepare himself for service, the various ray types of their influences, the relationship between the macrocosm and microcosm, the spiritual, causal, astral and physical realms and their interactions, the spiritual psychology of man (although this is dealt with much more fully in the Esoteric Psychology volumes), The Hierarchy of Masters, esoteric groups and schools, the spiritual centers (or chakras), the occult concept of the Seven Rays, meditation work and much more. One of the main themes is that of soul control. Students of the works of Alice A. Bailey and Theosophy believe that the ultimate purpose of White Magic is furtherance of the spiritual and material evolution of humanity. Specifically, this evolution is conceived in terms of the increased benevolent manifestation of seven spiritual energies or Seven Rays. It is further believed that adept practitioners of White Magic, wielding the power of the Seven Rays, can contribute to this evolution. Initiation, Human and Solar is book by Alice Bailey in which is explained her theory of the hierarchy of sacred entities, and the part initiation plays in that system. Initiation is presented as a growth of perception which serves as a guide to revelation and elucidation.

"A must-read for any Bailey student, anyone interested in the New Age movement, and for those who wonder, amidst our confused and divided world, where will it all end?" - Steven Chernikeeff, author of

Esoteric Apprentice From tragic beginnings as an aristocratic orphan to becoming the mother of the New Age spiritual movement, Alice A. Bailey is one of the modern era's most misunderstood occult figures. Bailey's journey is a story of faith, from orthodox Christian beginnings, through a protracted spiritual crisis, to a newfound belief in Theosophy. A mystic and a seeker, a founder of global spiritual organizations, and a surmounter of adversity, Bailey's past is rife with injustices, myths, and misconceptions - including that she was an anti-Semite and a racist with a dark agenda. With scandals and controversies laid bare, Bailey's extraordinary life is revealed as a powerful, remarkable legacy.

Esoteric Healing condenses, explains, and presents the teachings on healing by "the Tibetan" in the works of Alice A. Bailey, with an emphasis on training practitioners. Introductory chapters examine the nature of the subject and provide the necessary guidelines for diagnosing, prescribing, and

therapeutically utilizing specific energy forms intelligently, yet from an intuitive understanding. The main part of the book studies the healing circuits, known as triangles, arranged on a basis of clinical diagnoses relating to particular systems. Expanded sections describe the use of the sense triangle in healing, and triangles used in more advance esoteric healing. Individual chapters deal with the application of these healing energies to oneself and also how to approach cancer and other major planetary influences. A nation is an evolving spiritual entity, subject, as a human being is, to the impact of energies. These energies influence the national consciousness, encouraging recognition of soul destiny and co-operation with that evolving process. The spiritual destiny of many nations and their predisposing soul and personality influences are discussed in this book.
