Anne Geddes' photographs of babies have charmed countless fans for many years. In *Until Now*, Geddes takes us behind the scenes to find out what she was thinking when she captured these images, her 113 most-favorite photographs. Her text also provides a background to each photograph and helps readers understand how this artist and her subjects work together. Consider, for example, Geddes' comments about the shot she captured in 1991, which she titled "Rebecca": "She didn't want to hold the tulips, and she didn't want to sit on the chair--there were too many other things to be done. How do you get a 14-month-old to sit still? Show her the jelly bean, and then put it down her trousers." You already know how to give your children healthy food, but the hard part is getting them to eat it. After years of research and working with parents, Dina Rose discovered a powerful truth: when parents focus solely on nutrition, their kids - surprisingly - eat poorly. But when families shift their emphasis to behaviors - the skills and habits kids are taught - they learn to eat right. Every child can learn to eat well, but only if you show them how to do it. Dr. Rose describes the three habits - proportion, variety, and moderation - all kids need to learn, and gives you clever, practical ways to teach these food skills. With *It's Not About The Broccoli* you can teach your children how to eat and give them the skills they need for a lifetime of health and vitality. Filled with touches that make this a truly special journal--an envelope to hold a baby's first lock of hair, height and weight charts, and plenty of room for announcements, child's photos, and mementos--this Geddes album will become a treasured keepsake.
