Todd Thompson had been given the greatest opportunity of his new career: a chance for a permanent position at the prestigious Colby Agency. His assignment: to locate a prominent geneticist's missing pregnant wife. Trouble was, working side by side with Serena Blake — the brainy beauty who suspected foul play — provoked certain feelings Todd couldn't ignore. And when a series of mysterious incidents put Serena in jeopardy, Todd vowed he'd stop at nothing to keep her safe.... But now, as the danger escalated around them, the hunt for a sinister criminal threatened to resurrect long-buried secrets of the past that could threaten Todd and Serena's future forever....

Protective Custody Ian Michaels was the best investigator at Colby Agency. But under the guise of working together, Nicole Reed had been sent to sabotage his mission. Now Nicole needs the help of the man she had once betrayed in order to stay alive. Only this time, would the all-consuming passion between them cause their demise? **Physical Evidence Sheriff Mitch Hayden** was a man of his word. But P.I. Alex Preston was making a liar out of him with her blank memory and maddening allure. She'd come to town

to investigate a missingperson case, and ended up a prime suspect in the murder of one of Mitch's deputies. Though all evidence pointed to Alex, Mitch believed her innocent. So was his lawman's grit wavering, or was his physical knowledge of Alex suspect? He'll do anything for her. Especially save her life!

Health care delivery in the United States is an enormously complex enterprise, and its \$1.6 trillion annual expenditures involve a host of competing interests. While arguably the nation offers among the most technologically advanced medical care in the world, the American system consistently under performs relative to its resources. Gaps in financing and service delivery pose major barriers to improving health, reducing disparities, achieving universal insurance coverage, enhancing quality, controlling costs, and meeting the needs of patients and families. Bringing together twenty-five of the nation's leading experts in health care policy and public health, this book provides a much-needed perspective on how our health care system evolved, why we face the challenges that we do, and why reform is so difficult to achieve. The essays tackle tough issues including: socioeconomic disadvantage, tobacco, obesity, gun violence, insurance gaps, the rationing of services, the power of special interests, medical errors, and the nursing shortage. Linking the nation's health problems to larger political, cultural, and philosophical contexts, *Policy Challenges in Modern Health Care* offers a compelling look at where we stand and where we need to be headed.

When Jess Harris moved back to her Alabama hometown, she thought she'd left her past behind her. But the blood bath the new Major Crimes deputy chief finds at a murder scene is beyond even the savagery of Eric Spears, the serial killer who now haunts Jess's life with terrifying text messages. Amid eerie echoes of the Charles Manson massacre, Jess investigates the dismemberment of a cop's wife while her baby lay sleeping down the hall. The discovery of two more headless victims makes Jess wonder if it's a gang-related slaying, a personal vendetta . . . or something else. And the sudden reappearance of her ex-husband makes her question her future with Chief of Police Dan Burnett. Now as the net widens to include a shocking suspect, Jess realizes that the identity of the killer may lie with an autistic eight-year-old boy. With inner-city tensions at an all-time high and the community calling for blood, Jess must race to save an innocent child—and prevent a final, horrifying act of rage.

USA Today bestselling authors Debra Webb and Regan Black introduce the thrilling new spinoff *The Specialists: Heroes Next Door*. In the season of hope, someone's out for blood. Police Chief Abigail Jensen is determined to protect her town—and avoid falling too hard for Riley, the new guy next door. But deciding who to trust can be deadly, especially when he has deep secrets... Agent Riley O'Brien's mission was clear when he joined the CIA's covert Specialist task force: protect a small-town cop from a terrorist, no matter what. Trading his identity for the undercover guise of a handyman was part of the plan...getting close to Abigail on a personal—and passionate—level wasn't.

Laying Down the Law DEA Agent Cord Granger knows evidence doesn't lie. And he knows the serial killer in custody is his biological father is the Moonlight Strangler. With news of a similar attack, Cord takes the victim, rancher Karina Southerland, into his protective custody. Marred by the Strangler's hallmark slash across her cheek, Karina is sure Cord's father is innocent. The real killer is still out there and he's coming to finish what he started. At least they can agree that their smoldering attraction is real. Now, if there's any hope for a future, Cord must solve this murderous puzzle. Before the Moonlight Strangler strikes again. Dark Whispers Former homicide detective Clint Hayes has his first client as a private investigator: a fragile beauty he isn't sure he can trust. An injury has left Natalie Drummond with gaps in her memory, and she sees and hears things that aren't there. But she's sure she shot an intruder in her Birmingham mansion. So where's the body, the gun, the evidence? When it's clear someone is trying to kill his vulnerable client, Clint appoints himself her protector, working overtime not to fall for her. But someone is dead set that Natalie never regains her memories or makes new ones with Clint. He'll do anything to protect this doctor's life... Don't miss this Colby Agency: Sexi-ER novel! COLBY AGENT OR NOT, HE DIDN'T DARE CROSS THE LINE WITH THIS WOMAN?NOT YET Former U.S. marshal Shane Allen made one mistake on the job, and it cost him his reputation. Now he had a second chance working an inside case for the newly rebuilt Colby Agency. And nothing, certainly not some tagalong woman, was going to ruin it. After her sister's murder, justice was all that Mary Jane Brooks wanted. And Shane was crucial to nailing those responsible, even if he did send her pulse racing. Keeping things professional was downright impossible, especially when Mary Jane kept putting out conflicting signals. If Shane's instincts were right, this fragile beauty was a virgin in the worst kind of trouble but was he ready to take it all the way?

The mass media are diversified media technologies that are intended to reach a large audience by mass communication. The technologies through which this communication takes place vary. In the late 20th Century, mass media could be classified into eight mass media industries: books, newspapers, magazines, recordings, radio, movies, television and the internet. With the explosion of digital communication technology in the late 20th and early 21st centuries, the question of what forms of media should be classified as "mass media" has become more prominent. Each mass media has its own content types, its own creative artists and technicians, and its own business models. For

example, the Internet includes websites, blogs, podcasts, and various other technologies built on top of the general distribution network. The sixth and seventh media, internet and mobile, are often called collectively as digital media; and the fourth and fifth, radio and TV, as broadcast media. Some argue that video games have developed into a distinct mass form of media. Mass communication was seen by those who owned newspapers, radio and T.V. stations and by cinema producers mostly as an efficient device to reach messages to a very large number of people in a linear fashion. The media users were seen primarily as targets-passive targets for message intake and appropriate action either in voting as desired or buying products advertised or imbibing ideas intended by producers. Magic bullet theory suggests that messages were shot directly into the receiver. It assumes that receivers are passive and defenseless and take whatever is shot at them. The magic bullet theory also portrays that the media have a direct immediate and powerful effect on those who pay attention to their contents. This book has been intended as a manual for students of this subject. Contents: • Television: The People (Crew) • Television: Past Present and Future • News Paper Organization and Management • Printed Media Industry: Theory and Practice • Media Organizations • Film in India • Participatory Journalism and Weblogs • Weblogs and Journalism

"To solve the most heinous murder in Texas history, Colby investigator Lyle McCaleb has an unusual mission: find and protect the killer's long-lost daughter. The complication: she's tough, gorgeous rancher Sadie Gilmore-Lyle's first and only love. And now the mysterious past she barely remembers is threatening her very existence. Lyle regrets leaving Sadie broken-hearted seven years ago. And as he investigates and gets deeper into danger, he finds it almost impossible to maintain his professionalism around her. But another dilemma threatens their newly rekindled relationship. Can Lyle regain Sadie's trust while concealing the secret that may devastate her?"-- Cover verso.

Her nightmare isn't over yet . . . The Player is a master in the art of torture and murder. No one had ever gotten close to capturing him until Special Agent Jess Harris targeted him with her relentless determination. Jess's actions may have cost her a job with the bureau, but the Player still wants his vengeance and he'll make Jess pay in ways she never imagined. The first victim is Jess's friend-and the killer won't stop there. With each new death Jess becomes more certain that the only way to stop the Player is to give him what he really wants: her. Chief of Police Dan Burnett is determined to give Jess her confidence and her life back. With an offer on the table, a position as deputy chief of a new division, can Jess risk staying in her hometown and putting those around her in more danger? Or will she walk away to protect everyone she loves-including Dan, who just may want her back in his arms? The stakes are high, and a single impulse will determine who survives the Player's final, deadly game . . . "Compelling main characters and chilling villains elevate Debra Webb's Faces of Evil series into the realm of high-intensity thrillers that readers won't be able to resist." -- New York Times bestselling author CJ Lyons "Just when you think Debra Webb can't get any better, she does. Obsession is her best work yet. This gritty, edge of your seat, white knuckle thriller is peopled with tough, credible characters and a brilliant plot that will keep you guessing until the very end. Look for four new inspirational suspense stories every month from Love Inspired Suspense! *Killing Detente* tells the story of a major episode of intelligence intervention in politics in the mid-1970s that led to the derailing of detente between the Soviet Union and the United States and to the resurgence of the Cold War in the following decade. Although the basic outlines of the story are already known, Anne Cahn succeeded in getting many previously declassified documents released and uses these, supplemented by seventy interviews with principal players, to add much greater depth and detail to our understanding of this troubling event in U. S. history. In the mid-1970s a very controversial intelligence estimate was performed by people outside the government. They were given access to our most secret files and leaked their report to the press when Jimmy Carter was elected president. This study, which became known as "The Team B Report," became the intellectual forbearer of the "window of vulnerability" and led to the demise of detente between the Soviet Union and the United States. Team B was the fundamental turning point in renewing the Cold War in the 1980s. The debate over the leaked report moved the center of arms control policy strongly to the right from where it had been during the years of detente. Team B presaged the triumph of Ronald Reagan and a military buildup on a scale unprecedented in peacetime that left present and future generations with the most crippling debt in our nation's history. This book is about attempts to destroy improved relations between the United States and the Soviet Union in the 1970s. Those opposed to the easing of tensions between the two countries used every means available, including accusing the Central Intelligence Agency of understating the threat posed by the Soviets. Charging the CIA this way seems preposterous now.

When lives are on the line, Harlequin's most intriguing authors are on the case! Colby Lockdown by Debra Webb The Colby Agency is held hostage and the demand is simple: kidnap the D.A. or the entire staff dies. Now Slade Conroy has 24 hours to see that justice is done, but can he convince a woman on the inside to break all the rules to see that justice is served? Shotgun Sheriff by Delores Fossen When a woman is murdered in Comanche Creek, it sets the local lawman against a Texas Ranger out to make the case of her young career. Only this murderer won't stop at one body, and it'll take the combined talents of Reed Hardin and Livvy Hutton to halt further injustice from being done. A Baby Between Them by Alice Sharp Old habits die hard when Simon Task rescues his ex-girlfriend from certain death. But Jessie Baxter has no memory of who he is, whose baby she's carrying—or why her husband's trying to kill her!

Over the past two decades a number of attempts have been made, with varying degrees of success, to collect in a single treatise available information on the basic and applied pharmacology and biochemical mechanism of action of antineoplastic and immunosuppressive agents. The logarithmic growth of knowledge in this field has made it progressively more difficult to do justice to all aspects of this topic, and it is possible that the present handbook, more than four years in preparation, may be the last attempt to survey in a single volume the entire field of drugs employed in cancer chemotherapy and immunosuppression. Even in the present instance, it has proved necessary for practical reasons to publish the material in two parts, although the plan of the work constitutes, at least in the editors' view, a single integrated treatment of this research area. A number of factors have contributed to the continuous expansion of research in the areas of cancer chemotherapy and immunosuppression. Active compounds have been emerging at ever-increasing rates from experimental tumor screening systems maintained by a variety of private and governmental laboratories through out the world. At the molecular level, knowledge of the modes of action of established agents has continued to expand, and has permitted rational drug design to play a significantly greater role in a process which, in its early years, depended almost completely upon empirical and fortuitous observations.
