The SPIRIT IS in the Form is a collection of three books which allow the author to reveal the movement of Spirit in modern times through both familiar and original works. These books--The Symbolic Version of the Wizard of Oz (The Motion Picture), Hey There! Here I Am!! and Stop Dying and Start Living--use symbols to contrast the literal interpretation of the story to reveal a totally different meaning using the very same words. The new meaning is applicable to oneself in daily living. The simple message: Let the Spirit that is coming to you come through you.

medicine in discovering how and why people with Parkinson's develop symptoms, the diagnostic process, standard treatments and prognoses offered by expert practitioners, and ongoing research. The book presents strategies that have been shown, clinically or in research, to improve the health of people with Parkinson's, with the possibility of reversing symptoms. A major section of this work details strategies to create wellness, many available to patients at little or no cost. There are sections on symptom control, complementary medical treatments and therapies to avoid. The book is aimed primarily at people with Parkinson's, families and supporters, and may be used as a self-help book, including advice on building a team of supportive practitioners. There are also suggestions and advice for both Western allopathic medicine and complementary/alternative medicine practitioners to enhance their care of patients with a Parkinson's disease diagnosis, so it may be used as a handbook for practitioners wishing to move away from the standard conservative view of Parkinson's disease as an "incurable" disease.
