Are you interested in knowing how an ordinary person like you can make 5 figures every month day trading, but unsure how to start? Often, beginners enter the stock market by: ? Buying and holding onto a stock (value investing). That works well until the trend ends or a bear market begins. Then they try ? Position trading. This is the same as buy-and-hold, except the technique sells positions before a significant trend change occurs. ? Swing trading follows when traders increase their frequency of trading, trying to catch the short-term up and down swings. Finally, people try ?Day trading by completing their trades in a single day. You'll learn how the interbank currency markets work, and how to borrow strategy from the biggest players to profit from trends. of stocks within the same day. It enables you grow

your income through making profit from stock price

changes that occur during the day. To successfully

engage in day trading, it is important to understand

how it works. Apart from knowledge associated with

basic trading, day traders must also keep track of the

latest stock market news and analysis that can affect

or impact their stocks. They must be aware of

breaking news and the economic outlook held by

experts. Day trading requires a trader to put in at

least four to five hours every day. It will be best not

to take it up if you are unable to dedicate at least this

much time. It takes time and effort to spot trends and

capitalize on them. It will be important to move fast

and make quick moves to make the most of the

investment opportunities. When you are just starting

as a day trader, it will be best to focus on just one or

two stocks and track their movement. It is easier to

track limited stocks instead of focusing on too many.

Smaller amounts invested in stocks will make it

easier to track them and assess how your

investment is doing. Buying fractions of a stock is a good idea for beginners. It is always best to remain calm and collected, especially when the market is moving unpredictably. This is a characteristic that all day traders must possess to make the most of their trades. Your stock decisions should be based on logic and not impulsiveness. You must always have a plan of action ready. Successful traders will be able to move fast between plans and maintain decorum while trading. It will be best to stick with a winning formula compared to chasing profits. Most traders follow a set philosophy that states it is important to plan your trades instead of allowing emotions to guide you. This book explains it all and provides the reader with the steps he needs to know in order to become a successful day trader, the book does not promise the reader to turn into a rich man in few days but it guarantees to put the reader on the correct road become one in a very short term. Day trading holds tremendous attraction for those seeking to make money in the markets. Nearly 90% of market players are interested in day trading because it requires lower capital, you don't carry overnight risks and you can make money whether the market is rising or falling. The attraction can also be fatal because you have to act fast and if you don't have a clear strategy, the rapidly unfolding market events can stampede you into making wrong moves. This book contains a powerful day trading strategy, complete from how to select a stock to trade, to risk management and profitable exits. The strategy rests on the author's innovative concepts of trade invitation, and running and stagnant prices.

**HIGHLIGHTS:** ? Should you be day trading? Where to start ? Understanding trends — and how they are affected by changes in market sentiments ? How to interpret what the price is telling you ? How to identify a trade invitation ? How to confirm the validity of a trade invitation ? How and when to use running price to enter a trade ? Very few careers can offer you the freedom, flexibility and income that day trading does. As a day trader, you can live and work anywhere in the world. You can decide when to work and when not to work. You only answer to yourself. That is the life of the successful day trader. Many people aspire to it, but very few succeed. In the book, I describe the fundamentals of day trading, explain how day trading is different from other styles of trading and investment, and elaborate on important trading strategies that many traders use every day. I've kept the book short so you can actually finish reading it and not get bored by the middle. For beginner traders, this book gives you an understanding of where to start, how to start, what to expect from day trading, and how to develop your strategy. Simply reading this book, however, will not make you a profitable trader. Profit in trading does not come with reading a book or two or browsing online. It comes with practice, the right tools and software and appropriate ongoing education. Intermediate traders may benefit from the book's

extensive overview of some of the classic strategies that the majority of retail traders regularly use with proven success. If you think you are beyond the stage of a novice trader, then you may want to jump ahead and start reading from Chapter 7 for an overview of the most important day trading strategies: Day trading is not gambling or a hobby. You must approach trading very, very seriously. As such, I wake up early, go for a run, take a shower, get dressed, eat breakfast, and fire up my trading station before the markets open in New York. I am awake. I am alert. I am motivated when I sit down and start working on the list of stocks I will watch that day. This morning routine has tremendously helped my mental preparation for coming into the market. Whatever your routine is, starting the morning in a similar fashion will pay invaluable dividends. ABCD Pattern Trading Bull Flag Momentum Trading Top Reversal Trading Bottom Reversal Trading Moving Average Trend Trading VWAP Trading Support and Resistance Trading For each strategy, I explain: How to find the Stock in Play for trade What indicators I am using on my charts When I enter the trade When I exit the trade (profit taking) What is my stop loss Day trading is not gambling. It's not an online poker game. To be successful at day trading you need the right tools and you need to be motivated, to work hard, and to persevere. After a Loss What is Options Trading Strike Price The Purchase of Options Covered Calls and Buying Calls IN The Money OUT the Money Buying and Selling Puts Risk and Options Parameter Please remember, you will not become a successful trader by just reading this book. You will have to practice the rope tricks this book shows you about day trading. When it comes to trading, our reaction to the market is more important than what happens in the markets. This is true for any venture, be it business or sports. The playing conditions are the same for everyone. Then how is it that one sportsperson achieves amazing success while many others fail to do so? It happens because of that sports person's response to playing conditions were more in sync than other sportspersons. Similarly, financial markets are the same for everyone, but only one Warren Buffett achieves tremendous success, where many others have lost their fortunes. This emphasizes that you can learn as much as you want. But ultimately, it will be your actions that determine the ratio of your success in day trading. If you are standing before a mirror, and you want the person in the mirror to raise its arms, what would you do? Would you force the person in the mirror to raise its arms? No. If you raise your arms, the person in the mirror will do the same! Your success in day trading will be a similar exercise, whether you are trading in forex, commodities, stocks, or options. Markets will open, trade, and close. But how you react to those market conditions, will define how successful you are in day trading. So, start reading, and start applying what you have learned now.
