The medieval outlaws of Britain maintain a hold on the present-day imagination, judging by their presence in literature and on film. Exploring the nature of both historical and fictional outlaws, these twelve critical essays survey the literary, historical, and cultural environments that produced them, namely the medieval and early modern periods. Divided into three parts, the text examines the historical records of real outlawed men and women and the representation of Jews in medieval Britain as possible outlaws, outlaws associated specifically with Wales, and the popular figure of Robin Hood and the context of the late medieval poems and plays that feature him as a prominent figure.

during the long eighteenth century when the modern rules of sport were codified; sport emerged as a business, a spectacle, and a performance; and gaming organized itself around sporting culture. Examining the underexplored intersection of sport, literature, and culture, this collection situates sport within multiple contexts, including religion, labor, leisure time, politics, nationalism, gender, play, and science. A poetics, literature, and culture of sport swelled during the era, influencing artists such as John Collett and writers including Lord Byron, Jonathan Swift, and Henry Fielding. This volume brings together literary scholars and historians of sport to demonstrate the ubiquity of sport to eighteenth-century life, the variety of literary and cultural representations of sporting experiences, and the evolution of sport from rural pastimes to organized, regular events of national and international importance. Each essay offers in-depth readings of both material practices and representations of sport as they relate to, among other subjects, recreational sports, the Cotswold games, clothing, women archers, tennis, celebrity athletes, and the theatricality of boxing. Taken together, the essays in this collection offer valuable multiple perspectives on reading sport during the century when sport became modern.
