An American icon, Joseph Frank "Buster" Keaton is easily acknowledged as one of the greatest filmmakers in early cinema and beyond. His elaborate slapstick made audiences scream with laughter. But, his stone face hid an internal

turmoil. In **BUSTER KEATON: CUT TO THE CHASE**, biographer Marion Meade seamlessly lays out the life and works of this comedy genius who lacked any formal education. "Buster" made his name as a child of vaudeville, thrown around the stage by his father in a cartoon pantomime of very real abuse. The lessons he carried forward from that experience translated into some of the greatest silent films of all time. Keaton wrote, directed, performed, and edited dozens of features and shorts, including his masterpiece, *The General*. However, those early scars also led to decades of drinking and mistreatment of women. Keaton saw huge successes, Hollywood sex scandals, years of neglect from studios and audiences, and finally a shaky resurrection that assured his place in Hollywood's film canon. Meticulously researched, this book brings together four years of research and hundreds of interviews to paint a nuanced portrait of a compelling artist. No comedy fan or film buff should miss this insider story of the man behind the stone face.

Smith tells of the most dazzling and enigmatic of the silent clowns, a man who began his career in vaudeville as one-third of the Three Keatons at age four only to fall from grace with shattering swiftness in the early 1930s before eventually making a comeback on television in the 1950s.

Buster was sure he was the fastest bunny in the meadow. But during a race at summer camp, nothing goes as planned and Buster gets tripped up. After his epic fall, his older sister, Ivy, helps him see that failure is an opportunity to grow. As Buster remembers God's love, he is able to let go of others' opinions and accept that it is okay to try your best but not always be the best. Edited by Edward T. Welch, *Buster's Ears Trip Him Up* ends with a special section that guides parents in teaching children how the gospel of Jesus Christ comforts and sustains us through failure and turns our focus away from ourselves and toward others. Also included is a tear-out page of Back Pocket Bible Verses that will remind children and adults of God's love and help for those who get tripped up. A new series of hardback, illustrated children's books for three-to eight-

year-olds—each centered on an animal family—bring gospel help and biblical counsel to families. The animal characters, colorful illustrations, and the real-life issues each animal family face will captivate children. The first three books address anxiety, anger, and failure, bringing biblical help and hope to issues every child faces. The last page of each book contains information for parents on how God, in his Word, helps children apply biblical truth to specific issues. Together children and parents will be guided by the stories into meaningful conversations about living by faith in the details of everyday life. - Each story, based on a different animal family, will keep even the youngest child engaged. - Brightly colored, fun illustrations welcome children into a detailed animal world. - Each story helps children process a challenging situation with concrete, grace-based, help. - Instead of moralism, children are offered a practical way to follow Jesus through a difficult situation. - Based on CCEF's model of hope and help that encourages a growing relationship with Jesus. Many San Francisco Giants fans believe there is nothing Buster Posey can't do, and they have plenty of reason. In 2010, Buster led his new team to a World Series championship—the Giants' first since 1954. He and the rest of the Giants were halfway through the 2011 season when a game against the Florida Marlins left him with a broken leg. It looked like Buster could be on the injured list for a long time. The same hard work that had paved his way to the majors, though, helped him return to the field in 2012. Buster's return would mark a repeat World Series win for the Giants—a sweeping victory in the first

four games.

The Badger State's thriving upland bird population beckons hunters from across the country. Author Ken M. Blomberg recollects nearly half a century of the hunt in his backyard grouse paradise. Marshaling years of experience, he explains how logging roads often lead to grouse and, just as often, to nowhere. He paints an uplifting portrait of an old hunter dragging his creaky body through unforgiving terrain. And with spirit and humor, he tells of boon companions sharing stories around a campfire or nervously slumbering to a wolf country lullaby. Novice and veteran hunters alike will draw delight and inspiration from a relatable love affair with gun dogs, upland birds and Wisconsin.

When the nurturing nature of women meets the loyalty and unguarded affection of dogs, remarkable stories ensue. This book showcases these amazing connections and the resulting courageous and compassionate acts of love and healing they bring about.

If you are reading this now, you have the book I have written in your hands. If you choose to read this book you will actually be reading two stories, both stories are true. Remember that old cliché that the truth is sometimes stranger than fiction? Well this just happens to be stranger than fiction. You can't make this stuff up. Part one of my story is about Buster's life. And it was a rough start, almost from day one, which was November 2<sup>o</sup>, 1942. It was if he was angry from his very first day on this earth. Starting

with his eviction from I grade to his unsuccessful one day attendance at a Catholic school, to his one year stay at Philadelphia Children's Hospital for Rheumatic Fever, which left him with heart damage, I'd say that was a rough start, wouldn't you? Some may have described Buster as an angry, troubled young boy. That couldn't be farther from the truth I decided later on that Buster wasn't angry at all. He was just always trying to prove that he could be anything that he wanted to be. The fact was that he knew what he wanted to be at a very young age, he knew how he planned to get there, and he was determined to achieve his goals at any cost and no one was going to stop him. I talk about Buster's family and friends and how they may have influenced or had an impact on his life decisions, which ultimately led to his untimely death on October 8th, 1976. Part two of my book is the bizarre part of his story. If you don't find part one interesting enough, I suggest that you skip to part two. I guarantee you'll find it more interesting. There are several rumors as to why someone thought Buster had to die, we just don't know which is true or if there could be another reason that we don't know about. His young widowed wife Carol has spun many tales over the past years and truthfully we don't know what is true and what is a product of her imagination. She has told us about who the killers are and how the killers themselves end up

murdered. She tells us how crooked the Las Vegas detectives investigating the murder are and how they try to implicate her own family. This goes on for over 30 years and we still don't know the truth. After reading this story, you can decide for yourself what is true and what is not, if you choose to. The problem is, unless you were there, you will have the same problem that I have to this day. I don't know why he had to die and I don't know who did it.

An introduction to the life and accomplishments of

the African American civil rights attorney who became a prominent Supreme Court justice. Buster Crabbe's chief claim to fame, aside from his Olympic gold medal (for the 400-meter freestyle event in 1932), rests in the trio of movie serials in which he played the popular science-fiction hero Flash Gordon. Crabbe was the only actor to play the roles of Tarzan (in one movie), Flash Gordon, and Buck Rogers, the top three pulp action heroes of the 1930s. Crabbe carved out a career that would also include more than 100 B-movies and program Westerns, a television adventure series, and a successful physical fitness enterprise. All of this and more is detailed in this book, which includes a complete filmography providing cast and crew information for each of his 103 feature films and serials.

From 1953 to 1959, professional football's offensive and defensive tactics were in a transitional phase. As teams developed innovative strategies to attack the 5-2-4 defense, passing efficiency improved. In an attempt to counter this newfound passing success, the 4-3-4 defense evolved. This crucial shift in strategies is often overlooked in histories of the NFL, yet its impact on the game is still seen today. *The Birth of Football's Modern 4-3 Defense: The Seven Seasons That Changed the NFL* chronicles this key development in professional football. In this comprehensive review and analysis, T. J. Troup provides a year-by-year breakdown of these seven seasons. Each team has a separate entry for every season that includes: The coaching staff Player personnel An analysis of the stats Summation of the team's

season Outlook for the following season As Troup compiled this detailed volume, he had unprecedented access to coaches and players from this era, as well as extensive game footage. Drawing upon these resources, Troup scrutinized each team's success or failure and re-created the key game of the season for each team—bringing the action, intensity, and importance of the game to life. Including an exclusive interview with Joe Schmidt of the Detroit Lions, this book will entertain and inform all fans and historians of professional football, especially those interested in the early development of the modern defense.

How were your schooldays – happy, horrible, or just a bit crazy? For one teenager, writing in Austerity Britain sixty years ago, they were a mixture of all three, but it was the craziness that stood out in retrospect. Eastwood School, near Glasgow, went through a very lively period in the years following the Second World War. Many of the staff were young men not long back from the forces, often as high-spirited as the pupils they strove to teach. Yet somehow, they earned respect from these rowdy pupils. Relations between staff and pupils were generally good, with the teachers emerging as the real heroes of the piece. Many things were done

differently in the days before calculators, computers, mobile phones and iPods. Ball-point pens and television existed, but not many people had either, and even paper was in short supply. Other aspects no doubt remain much the same. All school life is chronicled here: high jinks to alleviate the boredom of classes; the giggling girls and the earnest students; the blushes of embarrassment; the dramas and disasters of exams; hopes and disappointments; crushes on teachers; the excitement of concerts, dances and sports events, which included annual contests of pupils versus staff in hockey, cricket, badminton and tennis. For many, the “Staff Hockey” was the highlight of the school year. Food, of course, was still rationed, and the dinner-ladies did not have an easy life. All these activities, interwoven with the on-going saga of the disintegrating bicycle and keen observation of teachers and fellow-pupils, are linked by one pupil’s odyssey from gawky fourteen-year-old “new girl”, desperately trying to fit in, to senior student eager to move on to the next stage of life. This account is an edited version of the author’s diaries from 1948 to 1951. Irreverent illustrations were added at a later date.
