It's hard to believe that there was a time when the jump shot didn't exist in basketball. When the sport was invented in 1891, players would take set shots with both feet firmly

planted on the ground. Defenders controlled the sport, the pace was slower, and games would frequently end with scores fit for a football field. It took almost forty years before players began shooting jump shots of any kind and sixty-five years before it became a common sight. When the first jump shooting pioneers left the ground, they rose not only above their defenders, but also above the sport's conventions. The jump shot created a soaring offense, infectious excitement, loyal fans, and legends. Basketball would never be the same. Rise and Fire celebrates this crucial shot while tracing the history of how it revolutionized the game, shedding light on all corners of the basketball world, from NBA arenas to the playgrounds of New York City and the barns of Indiana. Award-winning journalist Shawn Fury obsesses over the jump shot, explores its fundamentals, puzzles over its complexities, marvels at its simplicity, and honors those who created some of basketball's greatest moments. Part history, part travelogue, and part memoir, Rise and Fire bounces from the dirt courts of the 1930s to today's NBA courts and state-of-the-art shooting labs, examining everything from how nets and rims affect a shooter to rivalries between shooting coaches to how the three-pointer came to rule the game. Impeccably researched and engaging, the book features interviews and profiles of legendary figures like Jerry West, Bob McAdoo, Ray Allen, and Denise Long---the first woman ever drafted by the NBA, plus dozens more, revealing the evolution of the shot over time. Analyzing the techniques and reliving some of the most unforgettable plays from the greats, Fury creates a technical, personal, historical, and even spiritual examination of the shot. This is not a dry how-to textbook of basketball mechanics; it is a lively tour of basketball history and a love letter to the sport and the shot that changed it forever.

an instant classic. Bestselling author of *Fire and Fury* and chronicler of the Trump White House Michael Wolff dissects more of the major monsters, media whores, and vainglorious figures of our time. His scalpel opens their lives, careers, and always equivocal endgames with the same vividness and wit he brought to his disemboweling of the former president. These brilliant and biting profiles form a mesmerizing portrait of the hubris, overreach, and nearly inevitable self-destruction of some of the most famous faces from the Clinton era through the Trump years. When the mighty fall, they do it with drama and with a dust cloud of gossip. This collection pulls from new and unpublished work—recent reporting about Tucker Carlson, Jared Kushner, Harvey Weinstein, Ronan Farrow, and Jeffrey Epstein—and twenty years of coverage of the most notable egomaniacs of the time—among them, Hillary Clinton, Michael Bloomberg, Andrew Cuomo, Rudy Giuliani, Arianna Huffington, Roger Ailes, Boris Johnson, and Rupert Murdoch—creating a lasting statement on the corrosive influence of fame. Ultimately, this is an examination of how the quest for fame, notoriety, and power became the driving force of culture and politics, the drug that alters all public personalities. And how their need, their desperation, and their ruthlessness became the toxic grease that keeps the world spinning. You know the people here by name and reputation, but it's guaranteed that after this book you will never see them the same way again or fail to recognize the scorched earth the famous leave behind them.

News, and The Wall Street Journal, to name just a few—are vast, and his power is unrivaled. So what makes a man like this tick? Michael Wolff gives us the definitive answer in *The Man Who Owns the News*. With unprecedented access to Rupert Murdoch himself, and his associates and family, Wolff chronicles the astonishing growth of Murdoch's \$70 billion media kingdom. In intimate detail, he probes the Murdoch family dynasty, from the battles that have threatened to destroy it to the reconciliations that seem to only make it stronger. Drawing upon hundreds of hours of interviews, he offers accounts of the Dow Jones takeover as well as plays for Yahoo! and Newsday as they've never been revealed before.

'We won. Won in a landslide. This was a landslide.' President Donald J. Trump, 6 January 2021 Politics has given us some shocking and confounding moments but none have come close to the careening final days of Donald Trump's presidency: the surreal stage management of his re-election campaign, his audacious election challenge, the harrowing mayhem of the storming of the Capitol and the buffoonery of the second impeachment trial. But what was really going on in the inner sanctum of the White House during these calamitous events? What did the president and his dwindling cadre of loyalists actually believe? And what were they planning? Drawing on an exclusive and wide range of

sources who took part in or witnessed Trump's closing moments, Michael Wolff finds the Oval Office more chaotic and bizarre than ever before, a kind of Star Wars bar scene. At all times of the day, Trump, hunched behind the Resolute desk, is surrounded by schemers and unqualified sycophants who spoon-feed him the 'alternative facts' he hungers to hear - about COVID-19, Black Lives Matter protests, and, most of all, his chance of winning re-election. In this extraordinary telling of a unique moment in history, Wolff gives us front row seats as Trump's circle of plotters whittles down to the most enabling and the least qualified - and the president overreaches the bounds of democracy, entertaining the idea of martial law and balking at calling off the insurrectionist mob that threatens the hallowed seat of democracy itself. Michael Wolff pulled back the curtain on the Trump presidency with his globally bestselling blockbuster *Fire and Fury*. Now, in *Landslide*, he closes the door on the presidency with a final, astonishingly candid tale.

Professor Malik Solanka, retired historian of ideas, irascible doll maker, and since his recent fifty-fifth birthday celibate and solitary by his own (much criticized) choice, in his silvered years found himself living in a golden age. Outside his window, a long humid summer, the first hot season of the third millennium, baked and perspired. The city boiled with money. Rents and property values had never been higher, and in the garment industry it was widely held that fashion had never been so fashionable. - from *Fury* From one of the world's truly great writers comes a wickedly brilliant and pitch-black comedy about a middle-aged professor who finds himself in New York City in the summer of 2000. Not since the Bombay of *Midnight's Children* have a time and place been so intensely captured in a novel. Salman Rushdie's eighth novel opens on a New York living at break-neck speed in an age of unprecedented decadence. Malik Solanka, a

Cambridge-educated self-made millionaire originally from Bombay, arrives in this town of IPOs and white-hot trends looking, perversely, for escape. He is a man in flight from himself. This former philosophy professor is the inventor of a hugely popular doll whose multiform ubiquity – as puppet, cartoon and talk-show host – now rankles with him. He becomes frustratingly estranged from his own creation. At the same time, his marriage is disintegrating, and Solanka very nearly commits an unforgivable act. Horrified by the fury within him, he flees across the Atlantic. He discovers a city roiling with anger, where cab drivers spout invective and a serial killer is murdering women with a lump of concrete, a metropolis whose population is united by petty spats and bone-deep resentments. His own thoughts, emotions and desires, meanwhile, are also running wild. He becomes deeply embroiled in not one but two new liaisons, both, in very different ways, dangerous. Professor Solanka's navigation of his new world makes for a hugely entertaining and compulsively readable novel. *Fury* is a pitiless comedy that lays bare, with spectacular insight and much glee, the darkest side of human nature.

In March 2006, George W. Bush, President of the United States of America, visited India to finalize the landmark civil nuclear deal between the two countries. But far from the hum of expectations, the US negotiating team was hard at work in South Block-making every possible attempt to alleviate the concerns raised by Anil Kakodkar, Chairman of the Atomic Energy Commission (AEC), and Secretary, Department of Atomic Energy (DAE). Kakodkar's firmness paid off and the US team conceded to the demands made in the interest of India's strategic autonomy. Little wonder then that when Kakodkar was introduced to President Bush, he asked, 'So you are that Kakodkar? Are you happy?' It is this courage of

conviction and firm resolve that has defined the remarkable life and times of Anil Kakodkar, one of India's most respected nuclear scientists. Fire and Fury is a recollection of his profound journey—from humble beginnings in Madhya Pradesh to the highest office of the Chairman, AEC—through different events and watershed moments in the country's atomic energy programme over the past forty-five years. It chronicles the many inflection points of the programme as seen through the eyes of one of the chief architects of that journey.

The sequence of civil wars that ripped England apart in the seventeenth century was the single most traumatic event in this country between the medieval Black Death and the two world wars. Indeed, it is likely that a greater percentage of the population were killed in the civil wars than in the First World War. This sense of overwhelming trauma gives this major new history its title: *God's Fury, England's Fire*. The name of a pamphlet written after the king's surrender, it sums up the widespread feeling within England that the seemingly endless nightmare that had destroyed families, towns and livelihoods was ordained by a vengeful God – that the people of England had sinned and were now being punished. As with all civil wars, however, 'God's fury' could support or destroy either side in the conflict. Was God angry at Charles I for failing to support the true, protestant, religion and refusing to work with Parliament? Or was God angry with those who had dared challenge His anointed Sovereign? Michael Braddick's remarkable book gives the reader a vivid and enduring sense both of what it was like to live through events of uncontrollable violence and what really animated the different sides. The killing of Charles I and the declaration of a republic – events which even now seem in an English context utterly astounding – were by no means the only outcomes, and Braddick brilliantly describes the twists and turns that led to the most radical solutions of all to the country's political

implosion. He also describes very effectively the influence of events in Scotland, Ireland and the European mainland on the conflict in England. God's Fury, England's Fire allows readers to understand once more the events that have so fundamentally marked this country and which still resonate centuries after their bloody ending.

Frank Lloyd Wright has long been known as a rank egotist who held in contempt almost everything aside from his own genius. Harder to detect, but no less real, is a Wright who fully understood, and suffered from, the choices he made. This is the Wright whom Paul Hendrickson reveals in this masterful biography: the Wright who was haunted by his father, about whom he told the greatest lie of his life. And this, we see, is the Wright of many other neglected aspects of his story: his close, and perhaps romantic, relationship with friend and early mentor Cecil Corwin; the eerie, unmistakable role of fires in his life; the connection between the 1921 Black Wall Street massacre in Tulsa, Oklahoma, and the murder of his mistress, her two children, and four others at his beloved Wisconsin home. In showing us Wright's facades along with their cracks, Hendrickson helps us form a fresh, deep, and more human understanding of the man. With prodigious research, unique vision, and his ability to make sense of a life in ways at once unexpected, poetic, and undeniably brilliant, he has given us the defining book on Wright.

Thousands of years in the future, humanity is no longer alone in a universe where a mind's potential is determined by its location in space, from superintelligent entities in the Transcend, to the limited minds of the Unthinking Depths, where only simple creatures, and technology, can function. National Bestseller An enlightening and utterly convincing re-examination of the allied aerial bombing campaign and of civilian German suffering during World War II—an essential addition to our understanding of world history. During the Second World War, Allied air forces dropped nearly two million tons of bombs on Germany, destroying some 60 cities, killing more than half a million German citizens, and leaving 80,000 pilots dead. Much of the

bombing was carried out against the expressed demands of the Allied military leadership. Hundreds of thousands of people died needlessly. Focusing on the crucial period from 1942 to 1945, and using a compelling narrative approach, Fire and Fury tells the story of the American and British bombing campaign through the eyes of those involved: military and civilian command in America, Britain, and Germany, aircrew in the sky, and civilians on the ground. Acclaimed historian Randall Hansen shows that the Commander-in-Chief of Bomber Command, Arthur Harris, was wedded to an outdated strategy whose success had never been proven; how area bombing not only failed to win the war, it probably prolonged it; and that the US campaign, which was driven by a particularly American fusion of optimism and morality, played an important and largely unrecognized role in delivering Allied victory.

A New York Times Notable Book | Lambda Literary Award Winner | Long-listed for the PEN Open Book Award “Charles Blow is the James Baldwin of our age.” — Washington Blade “[An] exquisite memoir . . . Delicately wrought and arresting.” — New York Times Universally praised on its publication, Fire Shut Up in My Bones is a pioneering journalist’s indelible coming-of-age tale. Charles M. Blow’s mother was a fiercely driven woman with five sons, brass knuckles in her glove box, and a job plucking poultry at a factory near their segregated Louisiana

town, where slavery's legacy felt close. When her philandering husband finally pushed her over the edge, she fired a pistol at his fleeing back, missing every shot, thanks to “love that blurred her vision and bent the barrel.” Charles was the baby of the family, fiercely attached to his “do-right” mother. Until one day that divided his life into Before and After—the day an older cousin took advantage of the young boy. The story of how Charles escaped that world to become one of America’s most innovative and respected public figures is a stirring, redemptive journey that works its way into the deepest chambers of the heart. “Stunning . . . Blow’s words grab hold of you . . . [and] lead you to a place of healing.” — Essence “The memoir of the year.” — A. V. Club

President Trump threatens North Korea with 'fire and fury like the world has never seen', whilst fellow Republican John McCain warns that the country risks 'extinction'. But what does the regime in North Korea actually want? Is Kim Jong-un truly the mad cartoon villain that the media love to portray?

Without being an apologist for the oppressive North Korean government, T. J. Coles exposes the propaganda war waged against it, revealing the truth behind the simplistic news headlines. North Korea has made multiple offers to the international community to end its nuclear programme in exchange for assurances that it won't be attacked by the US. It has even committed to a no-first-use policy for nuclear weapons – something the US itself will not do. Far from being a state in self-imposed hermitage, North Korea has diplomatic relations with over one hundred countries. It is the US, argues Coles, that deliberately seeks to isolate the regime as part of its wider geostrategic goals in the Asia Pacific. The US's real target, and ultimately its biggest challenge, is China. Coles debunks myths regarding North Korea's military and demonstrates that in actual fact it has limited capabilities. In building up its own armed forces in the region (the so-

called Asia Pivot), the US is playing a dangerous game of nuclear brinkmanship. Fire and Fury provides a sharp, succinct briefing for anyone seeking a broader, less distorted and more balanced understanding of current events, whilst offering solutions for ordinary citizens who wish to further the cause of peace.

A powerful collection of new and recently completed poems by Ben Okri covering topics of the day, such as the refugee crisis, racism, Obama, the Grenfell Tower fire, and the Corona outbreak. In our times of crisis The mind has its powers This book brings together many of Ben Okri's most acclaimed and politically charged poems. Some of them, like 'Grenfell Tower, June 2017', are already familiar. Published in the Financial Times less than ten days after the fire, it was played more than 6 million times on Channel 4's Facebook page, and was retweeted by thousands on Twitter. 'Notre-Dame is Telling Us Something' was first read on BBC Radio 4, in the aftermath of the cathedral's near destruction. It spoke eloquently of the despair that was felt around the world. In 'shaved head poem', Ben Okri wrote of the confusion and anxiety felt as the world grappled with a health crisis unprecedented in our times. 'Breathing the Light' was his response to the events of summer 2020, when a black man died beneath the knee of a white policeman, a tragedy sparking a movement for change. These poems, and others

including poems for Ken Saro-Wiwa, Barack Obama, Amnesty and more, make this a uniquely powerful collection that blends anger and tenderness with Ben Okri's inimitable vision.

A military alpha hero. A flirtatious vixen. A crazed game of seduction. One pair of panties changed his life. "I'm putting my panties in your back pocket.
