"The hard questions are: Is there an absolute value? Must we conform? Do we owe what our country asks of us? Is justice necessary? How should we respond to evil? Is it right to forgive wrong actions? Is shame good? Should we be true to who we are? Do good intentions justify bad actions? Should moral evaluations be overriding? These questions are hard because reasonable answers to them are conflicting. The aim of this book is to show how hard questions can be reasonably answered"--

With honesty, humour and respect, Rabbi Edward Feinstein tackles topics as diverse as: 'Why does God let terrible things happen?', 'What is God anyway?', and 'If I pray for something, will I get it?'

This new book, from internationally renowned education scholar Pasi Sahlberg and his colleagues, focuses on some of the most controversial issues in contemporary education reform around the world. The authors devote a chapter to each of these "hard questions": Does parental choice improve education systems? Is there a future for teacher unions? What is the right answer to the standardized testing question? Can schools prepare children for the 21st-century workplace? Will technology save schools? Can anyone be a teacher? Should higher education be for the public good? What knowledge and skills should an educator have? Each

educational change question sheds much-needed light on today's large-scale education policies and related reforms around the world. The authors focus on what makes each question globally significant, what we know from international research, and what can be inferred from benchmark evidence. The final chapter offers a model for policymakers with implications for teaching, learning, and schooling overall. "This is an impressive and engaging book. If you care about the impacts of technology, testing, and teacher education designs, then this book will stretch your thinking and challenge your assumptions." —Andy Hargreaves, Boston College "Fascinating case studies open up our imaginations and provide clues for the most sustainable pathways forward for educators in the years to come." —Dennis Shirley, Boston College "Features enlightening chapters with an international perspective for educators and teacher educators alike. Highly recommended." —David C. Berliner, Arizona State University This revised edition of the Tough Questions series of small group curriculum faces head-on the difficult and challenging questions seekers ask about the Christian faith.

The author explores some of the most common questions children ask about death and provides sensitive yet candid answers, phrased in a way that children will be able to understand and relate to. someone when they are gone. The book recognizes the emotions and reactions of children and family members and includes separate conclusions for parents and children. This guide offers useful advice for parents and carers and will also be of interest to counsellors and other professionals working with children.

I was taken into the Spirit for three days. That's when God revealed to me that I was to write this book and interview Him. He said to me, "This book is one of My many tools that I will use in these last days to bring many out of bondage and bring healing to the nations of the world." This is not a new revelation; as God said, He is the same yesterday, today, and forever. This book just deals with serious questions of everyday life and the answers from God Himself. God said this does not replace or override His written Word in the Holy Scriptures but is another aide for everyday living. All the questions and answers were under the inspiration of God.

This volume deals with the varied forms of shame reflected in biblical, theological, psychological and anthropological sources. Although traditional theology and church practice concentrate on providing forgiveness for shameful behavior, recent scholarship has discovered the crucial relevance of social shame evoked by mental status, adversity, slavery, abuse, illness, grief and defeat. Anthropologists, sociologists, and psychologists have discovered that unresolved social shame is related to racial and social prejudice, to bullying, crime, genocide, narcissism, post-traumatic stress and other forms of toxic behavior. Eleven leaders in this research participated in a conference on The Shame Factor, sponsored by St. Mark's United Methodist Church in Lincoln, NE in October 2010. Their essays explore the impact and the transformation of shame in a variety of arenas, comprising in this volume a unique and innovative resource for contemporary religion, therapy, ethics, and social analysis.

The author covers all the common questions that children ask and provides sensitive, candid answers in a way that children will be able to understand and relate to. Many years ago Bob Dylan wrote: "The answer, my friend, is blowin' in the wind," but we've learned that really important answers don't come that easily. Asking questions is a sign of a healthy, growing faith, a faith that drives us deeper into God's Word. That's the reason God's first question in the Old Testament is "Where are you?" while the first question the wise men ask in the New Testament is "Where is He?" It's been observed that God answers just enough questions to get us through the day, while leaving us with enough unanswered questions so we can look forward to learning more tomorrow. This book is designed to deal with some of our most difficult questions or troubling issues . . . from a biblical perspective. At times it may appear that some questions have no answer, or maybe have more than one, or perhaps have answers that contradict each other. That's one reason we're not only to confront knotty questions, but willingly accept God's unraveling answers.

Today the faith of Christians is being undermined daily. A relentless stream of secular attacks from supposedly solid science has put many Christians on the defensive. Whether the argument is about evolution, history, or theology, every believer must be able to provide an answer for the hope that is within them. But you don't have to be an expert to respond effectively when confronted about your faith. Quick Answers to Tough Questions gives you quick and concise answers to the tough questions that are often posed to believers regarding: Creation and evolution Age of the earth and Noah's Ark Death and suffering Origin of life and missing links. Biblical history and a biblical worldview help us to understand the past, present, and future. Too many believers have fallen victim to those who say that the Bible's history is false or that science has disproved it. Equip yourself to address the skeptical questions and comments of believers and unbelievers alike and successfully stand strong in your defense of the inerrancy and truth of God's Word.

This book is based on the conviction that the Bible is God's inerrant word given for all humankind, and that it presents the framework of a total life-and-world view. Its doctrine and its ethical principles are relevant to the social and moral issues of all times. The author contends that until we learn to use the Bible and apply it to such problems as capital punishment, genetic

engineering, homosexuality, and labor strikes, we will be at the mercy of today's humanistic value-shapers and our own uninformed feelings.

This book is not the typical "Questions and Answers on Dinosaurs" book. It is not a book for children enabling them to find out the largest recorded dinosaur, to discover what dinosaurs ate or even how they managed to get up after nap time. An informative book on the biology and anatomy of the "mighty reptiles" - it is not. The series of questions in this treatise of answers has arisen from meetings conducted on dinosaurs. The questions have come from all kinds of people in various and sundry walks of life. Some of the questions were common and not much is to be learned from answers to such generalities. However, some of the questions are not only posed by the curious but come from hearts filled with consternation while contemplating the subject of Theodicy. Did the Creator contribute heavily to the world's landscape of tooth and claw? Is the canvass of God's creation not only etched in blood but filled with the stench and smell emanating from the so-called Mesozoic Era of the past?

More teenagers than every turn to librarians and teachers to ask private questions they are too afraid to share with family and friends. This book offers any librarian a quick primer on talking with young adults about the tough and often controversial topics of sex, drugs, alcohol, and violence. You'll have quick overviews on the issues themselves as well as tips for navigating these waters with teens. Each chapter offers background information on a particular topic followed by real-world strategies for supporting teens who may ask for help, often indirectly.

Pace draws on the practice of four experienced teacher educators with significant expertise in teaching controversial issues to build a robust framework for contained risk taking from the ground up.
