Over many miles and years, Rob Brooks has seen and experienced quite a bit of life. Rob's love of his family and his friends, of motorcycling and his God have afforded him opportunities to connect with a wide variety of people. These pages reflect a small portion, a window as it were, into the past 10+ years of his life. Rob is no one special, no one famous. Just a regular guy who loves life, and wants to experience as much of it as God might allow. Along the way, the observations, the wisdom gleaned from others, and the insights he has gained are worth passing on, in his estimation. We hope you will agree. May you be encouraged, challenged, amused, and inspired by the thoughts, reflections, and experiences of this "everyman." And maybe join him out on the road somewhere...

When a bad day at work culminates in losing out on a promotion, Jim Sanders shifts into his animal form to let off steam. Then his bad day turns into a bad night-while prowling his Atlantic City neighborhood as a large gray house cat, he's caught in a torrential downpour. What little luck he has washes down the gutter when his new boss, Andrew Wright, catches him taking shelter on his porch, brings him inside, and starts calling him Mr. Frosty. As a feline, Jim becomes the inadvertent confessor for his boss's lonely son, Tony, a victim of schoolyard bullying. As a human, he feels drawn to Andrew, a man he wanted to resent. Finding love was never part of Jim's plan for the future-not with his bizarre secret-yet suddenly he finds himself navigating that minefield anyway. But not everything is easy, especially for an interracial gay couple dealing with prejudice in the workplace, at Tony's school, and even within their own families.

Data Science is booming thanks to R and Python, but Java brings the robustness, convenience, and ability to scale critical to today's data science applications. With this practical book, Java software engineers looking to add data science skills will take a logical journey through the data science pipeline. Author Michael Brzustowicz explains the basic math theory behind each step of the data science process, as well as how to apply these concepts with Java. You'll learn the critical roles that data IO, linear algebra, statistics, data operations, learning and prediction, and Hadoop MapReduce play in the process. Throughout this book, you'll find code examples you can use in your applications. Examine methods for obtaining, cleaning, and arranging data into its purest form Understand the matrix structure that your data should take Learn basic concepts for testing the origin and validity of data Transform your data into stable and usable numerical values Understand supervised and unsupervised learning algorithms, and methods for evaluating their success Get up and running with MapReduce, using customized components suitable for data science algorithms

Young and beautiful, Lois Pryce was a rising star at the BBC. Unbeknownst to her co-workers, Lois lived a parallel life as a biker babe with an overwhelming sense of wanderlust. So she packed in her career to ride her motorcycle on her own from the northernmost tip of Alaska to the southernmost tip of South America. Alone. Armed only with the Spanish words for 'caution' and 'cheese', Lois was rather under-prepared for multiple bear sightings, bribing her way through borders, spending a night in a Mexican brothel and crashing her bike in the wilds of Patagonia. She most certainly got the adventure she craved, and her pulse-pounding, soul-searching adventure has already attracted fans worldwide - a weblog that she kept whilst on her travels was receiving more than two-thousand hits a day. Her hilarious, brilliantly written travelog will appeal to anyone who's ever dreamt of jacking-it-all-in and running away to see the world. Honda's CB750 was one of the most important bikes of the 1970s, and is considered by many to be the original superbike. Launched in 1969, Honda's first four-cylinder roadster revolutionized the motorcycle market, setting new standards of sophistication, user-friendliness and reliable high performance. The innovative CB750, with its overhead-camshaft engine, five-speed gearbox and disc front brake, changed the face of recreational motorcycling worldwide.

FUTURE COMPUTING discusses new technology advancements such as Cloud Computing which create new possibilities at lower costs and potential risks. Cloud computing is an aggregation of computing power and large amount of information. Many stake holders are looking into its current use and future evolutionary path. Mobile Technologies will undoubtedly include a diverse array of computing smart devices that look very different from the form factors available today such as touch screens, smartphones and tablets. These powerful cell phones have computer chips integrated into their designs, making them extremely portable and multifunctional. They have unique operating systems and software applications designed specifically for them. These devices also blend wireless networking technology, like cellular service and Bluetooth compatibility, with computing technology to let users go online anywhere and at any time. The book provides some surprising and useful insights into what current and potential users see as the most important benefits of cloud and mobile technologies which are the future computing technologies.

Eighteen countries. Five shock absorbers. Two bikers. One amazing adventure... After their fantastic trip round the world in 2004, fellow actors and bike fanatics Ewan McGregor and Charley Boorman couldn't shake the travel bug. Inspired by their UNICEF visits to Africa, they knew they had to go back and experience this extraordinary continent in more depth. And so they set off on their 15,000-mile journey with two new BMWs loaded up for the trip. Their route took them from John O'Groats at the northernmost tip of Scotland to Cape Agulhas on the southernmost tip of South Africa. Along the way they rode some of the toughest terrain in the world -- and met some of the friendliest people. They rode their bikes right up to the pyramids in Egypt and visited Luke Skywalker's house in Tunisia. They met people who had triumphed over terrifying experiences -- former childhood soldiers in Uganda and children living amidst the minefields of Ethiopia. They had a close encounter with a family of gorillas in Rwanda and were nearly trampled by a herd of elephants in Botswana. Riding through spectacular scenery, often in extreme temperatures, Ewan and Charley faced their hardest challenges yet. With their trademark humor and honesty they tell their story -- the drama, the dangers and sheer exhilaration of riding together again, through a continent filled with magic and wonder.

For decades the crown jewels of Japan's postwar manufacturing industry, motorcycles remain one of Japan's top exports. *Japan's Motorcycle Wars* assesses the historical development and societal impact of the motorcycle industry, from the influence of motor sports on vehicle sales in the early 1900s to the postwar developments that led to the massive wave of motorization sweeping the Asia-Pacific region today. Jeffrey Alexander brings a wealth of information to light, providing English translations of transcripts, industry publications, and company histories that have until now been available only in Japanese. By exploring the industry as a whole, he reveals that Japan's motorcycle industry was characterized not by communitarian success but by misplaced loyalties, technical disasters, and brutal competition.

Teaches basic knowledge and method of playing rock rhythm guitar.

Revered for his resonant, inventive, and unapologetically alive paintings, Frank Auerbach draws on both the people and urban landscapes near his studio in Camden Town, London, for inspiration. His intentions have been consistent: "What I wanted to do was to record the life that seemed to me to be passionate and exciting and disappearing all the time." This visually arresting publication will accompany a retrospective of Auerbach's work presented at Tate Britain and the Kunstmuseum Bonn in 2015. The exhibition, which will provide a wholly fresh survey of Auerbach's career, is curated by Catherine Lampert--who has sat for Auerbach since 1978--in close consultation with the artist. The only accessible, affordable survey of Auerbach's work

on the market, this much-needed assessment includes a new essay by art historian T. J. Clark. The book also features statements from the artist and previously unseen documentary photographs.

This best-selling book is also “#1 book in motorcycle safety” (Nielsen BookScan) and essential reading for all motorcyclists regardless of their years of experience. Author David L. Hough, a revered motorcycle author, columnist, and riding-safety consultant, lays out a clear course for all riders who want to sharpen their handling skills and improve their rides. This second edition, expanded and now in full color, offers new riders and road warriors the exact kind of advice they need to be prepared for anything when on the road, how to avoid accidents, and how to handle the unexpected. Hough, who began motorcycling in the 1960s, tackles every imaginable topic—from the mechanics of the bike, selection of the right-sized bike, and basic riding skills to night riding, group outings, and advanced survival tactics. In the chapter called “Motorcycle Dynamics,” Hough spells out the equipment needed and basic skills required to control a bike, and specifically keeping the rider’s safety and ability to avoid potentially injurious or fatal crashes. The author is outspoken and direct when it comes to safety, and he emphasizes the importance of the rider’s braking abilities and spells out how to improve them. The chapter offers six tried-and-true techniques for quick-stop tactics, critical for every rider to understand and master. He also addresses other vital skills that riders need to evaluate and improve, such as turning, maintaining balance and stability, and steering. He defines, compares, and analyzes the ins and outs of steering and control: direct steering, countersteering, push steering, out-tracking, coning, u-turns, and directional control. The chapter called “Cornering Habits” is a virtual master class in acceleration, deceleration, use of weight, throttle, leaning, and handling challenging terrain. Hough’s skill as a photographer and illustrator adds a graphic element to his books that leads to immediate understanding of the concepts he explains. The detail offered in each section of the book can only come from decades on the road, and the author is the consummate instructor, assigning homework to the readers in the form of exercises to practice and improve specific techniques that he outlines and illustrates in the text. Any rider who would venture out on the road without David Hough’s voice in his head takes an unnecessary risk with his own life. Proficient Motorcycling takes riders from long, snaking country roads right into the traffic of the big city, and Hough offers the best advice for riders dealing with the most challenging conditions, whether it’s road construction, snap-jawed intersections, skateboarders, or suddenly slippery road surfaces. A critical section of the book offers riders advice on how to deal with automobiles, including aggressive car drivers, oblivious SUV drivers, or “blind” truck drivers. The book offers the kind of first-hand experience that can literally save riders’ lives, as illustrated in the chapters “Booby Traps” and “Special Situations,” which offer evasive tactics and advice to avoid and handle everything from slick surfaces, curbs, and construction plates to ferocious dogs, hazardous wildlife, and difficult weather conditions. The final chapter of the book, “Sharing the Ride,” is geared toward experienced riders who travel together in groups or who travel with a second passenger on the bike. Topics covered are formation, packing for trips, communication between riders, sidecars, trikes, and more. The book concludes with a resources section of organizations, training schools, educational tools, and websites; a glossary of 80+ terms; and a complete index.

By the time Timber Marlow is fifteen years old, she has already killed three men. Despite the bloody and violent nature of their deaths, Timber is hardly a murderer, at least not in the traditional sense of the word. She has lived her entire life as a cannibal within a cult tucked away in the San Bernardino Mountains called the Divinity of Feminine Reproach. She watches rituals where Divinity members are tied down and beheaded by their leader, Daddy Marlow. The Divinity keeps itself isolated from the Outside, which is the mainstream society beyond its invisible borders. When the opportunity presents itself, Timber escapes into the Outside, bearing witness to some dark and unsettling truths about the world around her and the integral role she plays in it. And no matter how long she stays away, Timber finds out the past isn’t as far away as she thinks it is. In this debut novel, laced with scenes of horrific violence and uplifting humanity, Martin Lastrapes has written a one-of-a-kind story about love, friendship, sacrifice, and cannibalism.

Chin up, Britain! Now is the time to return to basic commonsense and embrace a new austerity. Can't afford a holiday? Slather on some sun tan lotion that smells of coconuts, at least you'll smell like you're on holiday. Don't know what to do with a left-over half a banana? Discard it surreptitiously on the floor of a government-owned building, 'accidentally' slip on it and claim thousands of pounds of compensation. Can't afford new shoes? Polish your old ones. And if all else fails, why not sell your children on ebay? In her inimitable style, Jenny Éclair brings you helpful and hilarious tips for changing the way you live, including beauty on a budget, identifying your swappable skills (burying dead animals, tuning a freeview box), improving manners on public transport, the fine art of 'out-presenting' and a guide to gate-crashing.

Jupiter's Travels -Ted Simon's astonishing 4 year motorbike journey around the world The book that inspired Ewan McGregor's Long Way Round In the late 1970s Ted Simon set off on a Triumph and rode 63,000 miles over four years through fifty-four countries in a journey that took him around the world. Through breakdowns, prison, war, revolutions, disasters and a Californian commune, he travelled into the depths of fear and reached the heights of euphoria. He met astonishing people and was treated as a spy, a welcome stranger and even a god. For Simon the trip became a journey into his own soul, and for many others - including bikers Charley Boorman and Ewan McGreggor - it provides an inspiration they will never forget. This classic text, which has informed a whole genre of travel writing in the thirty years since it was first published, will never be bettered for sheer adventure, passion, humour and honesty. Brought up in England by a German mother and a Romanian father, Ted Simon found himself impelled by an insatiable desire to explore the world. It led him to abandon an early scientific career in favour of journalism, and he has worked for several newspapers and magazines on Fleet Street and elsewhere. Ted Simon is also the author of Riding Home and The Gypsy in Me.

It was the first day on the job for Cynthia Cole--and the last day of a normal life. Cynthia watched the store surveillance monitor closely. At first, she thought it was another one of her lucid daydreams. But no, it was real. Her co-workers were actually murdering her adversary Rebecca Singleton right on camera. While still in grave disbelief Cynthia is taken to view the corpse up close and personal. Reality slips

even further away after she watches Rebecca Singleton's body disappear into thin air. The chilling curse is revealed. Rosario, the manager of the store informs her that individuals murdered inside Happi-Mart have their entire history of existence erased. The Retail Girls referred to this curse as a 'special service.' After police dismiss her claim, Cynthia begins her own investigation into Happi-Mart. The thing is...She felt as if she was being prepared for this moment her entire life...Including fighting the grotesque creatures that dwell the aisles.

Mama of ten Abbie Halberstadt helps women humbly and gracefully rise to the high calling of motherhood without settling for mediocrity or losing their minds in the process. Motherhood is a challenge. Unfortunately, our worldly culture offers moms little in the way of real help. Moms only connect to celebrate surviving another day and to share in their misery rather than rejoice in what God has done and to build each other up in hard times. There has to be a better way, a biblical way, for moms to grow and thrive. As a daughter of Christ, you have been called to be more than an average mom. Attaining excellence doesn't have to be unsettling but it will take committed focus and a desire to parent well according to God's grace and for His glory. M is for Mama offers advice, encouragement, and scripturally sound strategies seasoned with a little bit of humor to help you embrace the challenge of biblical motherhood and raise your children with love and wisdom. Mama, you are worthy of the awesome responsibility God has given you. Now it's time to start believing you can live up to it.

A young man escapes 1970s Belfast on his Moto Guzzi Le Mans, and tries to find himself... and the road to Australia... what could possibly go wrong

Very few inhabitants of the Sardinian village of Abacrastra survive to old age. By tradition they are fated to take their own lives, with belts or ropes, having heard the Voice ('Ajo! Get ready, your time has come!') telling them to prepare to die. This novel tells the stories of the Abacrastrians, of their lives and remarkable deaths, in a series of tales.
