Back in the days of Ronald Reagan's America, those far-from-innocent days of nostalgic rot and willful illusion, small-town life was thought to be simple, pure, the source of all decent values, and the home of true hearts and ever helpful neighbors who bear each other's burdens. James McGrath, a church musician who has just destroyed his personal life and his career through an act of catastrophic stupidity, believes this nonsense just long enough to flee a city he loves. Hoping to heal, he goes to live with his father in a tiny town on the Canadian border. He finds what fools have always found: truths more ordinary and more bitter than he wants to accept and a life more impoverished and antagonistic than he imagined. Descending into this bleak reality, like Jesus in the wilderness, James must face and answer the question: what do we live by? He makes some friends, falls in and out of love, rediscovers his art, and eventually finds a way back into his life. But it's not a smooth journey, and it comes with a price.

Features intricately detailed, bas-relief collage spreads of dwellings in other world regions and historical times to explain how different people live and have lived--from a village house in South Africa that tells the story of its family to a floating green house in the Netherlands. 20,000 first printing.

is Living as If, even and especially when we are not sure, and in so doing releasing a power that can transform ourselves and those we touch.” Miller’s fresh understanding of the meaning of faith—Living as If—and how it works can lead to a new approach to life and the fashioning of a more positive and hope-filled future. In this book he takes into account pertinent psychological findings, case histories, personal stories, and profound religious thought. As he explores the role of “as if” processes, he looks at self-concept, change, influence on others, healing, religious belief, and social change. Writing sensitively and sensibly, Miller sets an undeniably optimistic tone, emphasizing that within certain limits each person can design a course for the present and future as well.
