One of The New York Times Book Review's "10 Best Books of 2015" An NYRB Classics Original The Door is an unsettling exploration of the relationship between two very different women. Magda is a writer, educated, married to an academic, public-spirited, with an on-again-off-again relationship to Hungary's Communist authorities. Emerence is a peasant, illiterate, impassive, abrupt, seemingly ageless. She lives alone in a house that no one else may enter, not even her closest relatives. She is Magda's housekeeper and she has taken control over Magda's household, becoming indispensable to her. And Emerence, in her way, has come to depend on Magda. They share a kind of love—at least until Magda's long-sought success as a writer leads to a devastating revelation. Len Rix's prizewinning translation of The Door at last makes it possible for American readers to appreciate the masterwork of a major modern European writer.

Celebrating a quarter century of the car that redefined its genre. [apply edits made above] The Mazda MX-5, (known as Miata in North America and Eunos Roadster in Japan), revolutionized the lightweight two-seater roadster market. By taking the front-engine, rear-wheel-drive layout of traditional British and Italian roadsters and combining it with the modern function and reliability for which Japanese cars were justly famous, Mazda created what many consider the perfect sports car. The MX-5 became the best-selling sports car of all time, selling over a million units worldwide. Customers proved that they hadn't lost their desire for simple, lightweight two-seat convertibles; they had simply lost their desire for unreliable, archaic European anachronisms that caught on fire as part of their charm. In 2009, English automotive critic Jeremy Clarkson wrote: "The fact is that if you want a sports car, the MX-5 is perfect. Nothing on the road will give you better value. Nothing will give you so much fun. The only reason I'm giving it five stars is because I can't give it 14." Mazda MX-5 Miata: Twenty-Five Years is a handsomely-illustrated coffee-table book celebrating Mazda's ground-breaking MX-5 Miata, the car that revolutionized the lightweight two-seater roadster market. Presents the latest safety ratings, dealer prices, fuel economy, insurance premiums, maintenance costs, and tires of new model automobiles.
