This book gathers selected research articles from the International Conference on Innovative Product Design and Intelligent Manufacturing System (ICIPDIMS 2019), held at the National Institute of Technology, Rourkela, India. The book discusses latest methods and advanced tools from different areas of design and manufacturing technology. The main topics covered include design methodologies, industry 4.0, smart manufacturing, and advances in robotics among others. The contents of this book are useful for academics as well as professionals working in industrial design, mechatronics, robotics, and automation.

This title was first published in 2002. This compelling text provides fresh insight into an area that is often touched upon, but rarely examined in any great detail - the relationship between Multinational Enterprises (MNEs) and their host governments. Taking Japanese Foreign Direct Investment (FDI) strategy, arguably the model of FDI, Young-Chan Kim takes a revealing look at why the United Kingdom (UK) has dominated among the EU member states for FDI destination, while ironically losing its nationalized car manufacturers. Scholars of business history, international business and business economics will find this work invaluable.

Beauty manifests itself in nature, and that beauty inspires love, kindness, and goodwill. In *The Morning Echo*, author Javed Naseer explores a plethora of subjects revolving around nature and science and the role they play in life. Collected from his life experiences from his early childhood after leaving India for New Orleans to adulthood, the essays are based on experiments and speculation as well as mathematics, derivation, and extrapolation. These essays share insights on a wide array of topics, discussing how India emerged as a free democratic republic after dethroning British from positions of authority in the Indian subcontinent; presenting a brief introduction to a ruling democratic government and its methods of implementing justice; and describing the Apollo 11 mission to the moon and the first man, Neil A. Armstrong, on the moon. Naseer also delves into the issues involving the ever-growing world population and the pollution crisis that plagues our planet; brings to light one of the cheapest resources of energy, hydropower; lists the top ten universities of the world; and reviews Einsteins Special Relativity and Newtons Laws of Motion Covering widely diverse subjects, *The Morning Echo* communicates valuable insight as to the nature of human life, the world around us, and how we must act in order to survive the calamities and the brutalities of time.

Detective Superintendent Roy Grace, creation of the CWA Diamond Dagger award-winning author Peter James, faces his most engrossing case yet in *Left You Dead*. Niall and Eden Paternoster start their Sunday the same way they always do – with a long drive, a visit to a country house and a quick stop at the local supermarket on the way home. But this Sunday ends differently – because while Niall waits and waits in the car park for Eden to pick up supplies, Eden never returns. She's not waiting for him at home, and none of their family or friends have heard from her. Gone without a trace, Niall is arrested on suspicion of her murder. When DS Roy Grace is called in to investigate, it doesn't take long to realize that nothing in this case is quite as it seems . . . *Left You Dead* is the seventeenth thrilling crime novel in the Roy Grace series. Enjoy more of the Brighton detective's investigations with *Dead Simple*, *Looking Good Dead* and *Not Dead Enough*. Now a major TV series starring John Simm. It was brash and it was loud – the 1980s put paid to the glumness of the '70s and nowhere was that more obvious than in the cars we drove, which took a quantum leap in durability, performance, equipment and style. They had to: Japanese quality and European design were luring away ever more customers. Features such as fuel injection, turbochargers, computer-controlled systems and four-wheel drive became commonplace. This was also the decade that brought us the people-carrier and the off-roader, new classes of car that radically reshaped family transport. Meanwhile, seatbelt-wearing became law, the M25 opened, speed cameras appeared and ram-raiding was the new motoring nemesis. Relive everything car-related in Britain in the 1980s with Giles Chapman.

'In the pit of my stomach, as I kissed my four-year-old son Lio and my darling wife Sasha goodbye, I knew something was up. By that evening, the police had told me about the crash. 'Lio's bright and talented mother was killed that day, and he narrowly escaped the same fate. But instead of it being an ending for us, the crash was a beginning. 'Lio's miraculous recovery from severe brain damage and a coma defied medical science. As I witnessed his astonishing journey - from intensive care bed to 10 Downing Street - and fought to pull him through horrific injuries and the loss of his mother, I found real purpose and meaning for the first time in my life.' After the Crash is much more than a moving personal story. It's a handbook for dealing with disaster, not just surviving it but mastering it and using it to transform your life for the better.

**SHORTLISTED FOR THE TELEGRAPH RUGBY BOOK OF THE YEAR** The truth about being a rugby player from the horsey's mouth. This book is not just about how a psychiatrist called Humphrey helped me get back on my horse and clippity-clop all the way to the World Cup semi-final in Japan. It's the story of how a fat kid who had to live up to the nickname Psycho grew up to play and party for over a decade with rugby's greatest pros and live weird and wonderful moments both in and out of the scrum. That's why I'm letting you read my diary on my weirdest days. You never know what you're going to get with me. From being locked in a police cell to singing Adele on Jonathan Ross (I'll let you decide which is worse), being kissed by a murderer on the number 51 bus to drug tests where clipboard-wielding men hover inches away from my naked genitalia, melting opponents in rucks, winning tackles, and generally losing blood, sweat and ears in the name of the great sport of rugby. This is how (not) to be a rugby player.

In Japan it's called the "Ghosn Shock"—the stunning arrest of Carlos Ghosn, the jet-setting CEO who saved Nissan and made it part of a global automotive empire. Even more shocking was his daring escape from Japan, packed into a box and put on a

private jet to Lebanon after months spent in a Japanese detention center, subsisting on rice gruel. This is the saga of what led to the Ghosn Shock and what was left in its wake. Ghosn spent two decades building a colossal partnership between Nissan and Renault that looked like a new model for a global business, but the alliance's shiny image fronted an unsteady, tense operation. Culture clashes, infighting among executives and engineers, dueling corporate traditions, and government maneuvering constantly threatened the venture. Journalists Hans Greimel and William Sposato have followed the story up close, with access to key players, including Ghosn himself. Veteran Tokyo-based reporters, they have witnessed the end of Japan's bubble economy and attempts at opening Japan Inc. to the world. They've seen the fraying of keiretsu, Japan's traditional skein of business relationships, and covered numerous corporate scandals, of which the Ghosn Shock and Ghosn's subsequent escape stand above all. Expertly reported, *Collision Course* explores the complex suspicions around what and who was really responsible for Ghosn's ouster and why one of the top executives in the world would risk everything to escape the country. It explains how economics, history, national interests, cultural politics, and hubris collided, crumpling the legacy of arguably the most important foreign businessman ever to set foot in Japan. This gripping, unforgettable narrative, full of fascinating characters, serves as part cautionary tale, part object lesson, and part forewarning of the increasing complexity of doing global business in a nationalistic world.
