At just twenty-two years of age, Briana Mills finds herself at a desperate crossroads. Once a promising student at the University of Oregon, she now finds herself alone on the streets of Portland with only the clothes on her back, memories of a happier time, and the stray dog that's adopted her. And she's got the drug that helps her forget. Briana's mistakes haunt her, lashing her with severe consequence, forcing her to make a decision few would ever make. Still, in a final attempt to make her young life count for something, Briana begins writing it all down—everything—so that others walking the crumbling precipice of rebellion might leap to safety before it's too late. She writes about her present struggles and the past. She writes about Michael, the boy she loved and left behind when she went off to college. She writes about the violent activism and drug that derailed her life. She writes about the demands placed on her by a socially conscious mother, and the adoration shown by a proud father. And Briana talks about Brody—the young activist leader who captured her heart, took it to the altar, and then crushed it. What develops is an engrossing record of a young and troubled life, one both beautiful and ugly, innocent and corrupt, lost and then found. And wrapped in its literary sinew is a cast of characters as diverse and engaging as the stars, and an impassioned love story sure to transcend time. What readers are saying: "Timeless...provocative." "Characters so real you'd swear this was a true account." "A brilliant read!" Alone Among People is D. M. Anthony's first novel. He lives in California where he's at work on his next book. This review is from: Alone Among People (Paperback) A Compelling and Heart Warming Story, September 25, 2012 "Alone Among People is at once an engaging, moving story and a provocative statement about the thin line between thriving and sinking into an abyss as inescapable as quicksand. Its timeless and uplifting messages of hope conquering despair, healing borne of love and care, and peace at discovering one's identity are an inspiration. The author's empathy for the characters and their plight betrays knowledge of what he writes, and offers the reader a unique glimpse into a vulnerable and intimate place... his heart. I recommend this book to anyone who has traveled through the anguish of darkness... and longed for the light; it may just guide your way."

Have you ever given consideration to what it would be like to be deaf? Not hearing a single sound. Sure, it's quiet in your house, but you still hear sounds. I would like to think the sensation would be equitable to being underwater, but that would not be a true statement. You can still hear things while being underwater: Waves swishing and people talking above the water - yelling or laughing. Deafness is pure silence. When something big drops to the floor, I "feel" the thump it made. When my dogs bark, I can't hear them, but if they jump on my bed while I'm sleeping, I can feel they are present to wake me for a incoming visitor, burglar, tornado or other natural disaster. This book is a candid, and comical view about hearing loss, Meniere's Disease, vertigo, and the process of undergoing cochlear implant surgery. It also goes into depression and coping mechanisms for all of the above. It is a MUST read for someone or anyone you know (possibly yourself, but you won't admit it), who may be suffering from hearing loss. Progressive hearing loss is subtle. The sounds we often take for granted you no longer hear. Pay attention to your surroundings next time you are outside. Can you still hear the birds?

In this volume on political argumentation, the study of argument takes place within a rhetorical framework. As such, it is a contribution to the study of argumentation-in-context with an explicit rhetorical approach. Rather than focusing on the poor quality of political participation and political understanding by citizens, this volume explores how the study of rhetoric, both as an academic discipline and as a political practice, stands in a unique position to critically engage with a 'contextualized' understanding of politics and civic engagement.

Many contributions in this volume confront classical rhetorical concepts and theories with current political developments such as globalization and multiculturalism and the emergence of new democracies. Others focus explicitly on deliberative rhetoric in the political realm, or undertake a critical analysis of political texts and public events in order to explore what this can imply for the development of a 'critical' citizenship.
