From the New York Times bestselling author of *Star Trek: Discovery: Desperate Hours* comes an original, thrilling novel set in the universe of *Star Trek: The Next Generation*! The past returns to haunt Captain Jean-Luc Picard—a crime he thought long buried has been exposed, and he must return to Earth to answer for his role in a conspiracy that some call treason. Meanwhile, the U.S.S. Enterprise is sent to apprehend pirates who have stolen vital technology from a fragile Federation colony. But acting captain Commander Worf discovers that the pirates' motives are not what they seem, and that sometimes standing for justice means defying the law....

The Enterprise journeys to Lorca, a beautiful world where the inhabitants wear masks to show their rank and station. There, Captain Picard and an away team begin a quest for the planet's ruler and the great Wisdom Mask that the leader traditionally wears. Their mission: establish diplomatic relations. But Picard and his party lose contact with the ship, and Commander Riker leads a search party down to the planet to find them. Both men are unaware that their searches are part of a madman's plan. A madman who is setting a trap that will ensnare both landing parties, and leave him poised to seize control of the awesome Wisdom Mask. And the planet Lorca itself.

Captain Jean-Luc Picard, his ship repaired, must now reassemble his crew. With the departure of both William Riker and ship's counsellor Deanna Troi, the captain must replace his two most trusted advisors. He chooses a Vulcan, a logical choice, and for his new first officer, Worf. But the Klingon refuses the promotion and the new ship's counsellor appears to actively dislike Worf. A simple shake-down mission should settle everything. Except that once again, the captain hears the song of the Borg collective. Admiral Janeway is convinced that the Borg have been crushed and are no longer a threat. Picard believes she is wrong, and that if the Enterprise doesn't act the entire Federation will be under the domination of its most oppressive enemy.

After facing the Borg menace, the crew of the U.S.S. Enterprise is looking forward to a little exploration when the enigmatic Q informs them that the universe is at stake if they don't unravel the mystery of a strange planet in this Star Trek: The Next Generation novel. Nearly two decades ago, Jean-Luc Picard took command of the U.S.S. Enterprise NCC-1701-D, knowing it was an honor without equal. On her first mission, the Enterprise was sent to Farpoint Station for a simple, straightforward investigation. Perfect for a crew that had never served together. Then there was Q; an omnipotent lifeform that seemed bent on placing obstacle after obstacle in the ship's—and in particular in Picard's—way. And it hadn't ended with that first mission. When he was least expected, Q would appear. Pushing, prodding, testing. At times needling captain and crew with seemingly silly, pointless, and maddening trifles. Then it would turn all too serious, and the survival of Picard's crew was in Q's hands. Why was it today that Picard was remembering the day he took command of the Enterprise-D? Now he commanded a new ship, the Enterprise-E, with a different crew. But Picard couldn't shake the feeling that something all too familiar was going on. All too awful. All too Q.

The Rashanar Sector, site of one of the fiercest battles of the Dominion War, now contains a vast interstellar graveyard littered with the hulks of hundreds of devastated starships. The destruction of so many warp drives has created a danger zone where the space-time continuum is distorted, and bizarre energies and anomalies are unleashed. To some, the former battleground is hallowed space. To others it is a scavengers' paradise, ripe for plunder, and the USS Enterprise is assigned to patrol it, protecting those engaged on legitimate salvage. But the ships' graveyard holds a deadly secret -- one that will force the android Data to make a heart-wrenching decision about the path his life will take, and will endanger not only the Enterprise, but Picard's very future in Starfleet. Another bestseller from the series with more than 8 million copies in print. Summoned to a dying planet to negotiate peace between two warring factions, the Enterprise is immediately called away again on an urgent mission, leaving Lt. Worf to act as peacemaker in the dangerous negotiations that will determine the

fate of an entire world.

Go into the alternate "Mirror, Mirror" universe to meet the cold-blooded crew of the I.S.S. Enterprise, and their captain, the ruthless Jean-Luc Picard in this collection of three graphic novels! Space... The final frontier. These are the voyages of the I.S.S. Enterprise. Its continuing mission: to conquer strange new worlds, to enslave new life and new civilizations... To boldly go where no one has gone before! In the other-dimensional Mirror Universe there is no United Federation of Planets, only a cruel Terran Empire, where advancement comes through assassination, brutality is commonplace, and kindness is a weakness. In *Mirror Broken*, the Terran Empire is on its last legs in its war with the Klingon-Cardassian Alliance, but Captain Jean-Luc Picard has learned of a final chance for victory: a revolutionary new Galaxy-class starship that could turn the tide of the war. The ship is called Enterprise--and Picard intends to take it. In *Through The Mirror*, when the Enterprise-D discovers a burned-out, pillaged Andorian vessel, the search for the culprits leads to some startlingly familiar faces. But, how did the Mirror Universe crew find their way to ours, and what does Emperor Spock have to do with it? Plus, it's interstellar espionage aboard the Enterprise-D when the Mirror Universe crew infiltrates Captain Picard's ship! And in *Terra Incognita*, the Enterprise crew returns to business as usual, little realizing the serpent in their midst--one of their own has been replaced! Six stories focusing on fan-favorite crew members of the Enterprise-D--including Deanna Troi, Wesley Crusher, and Selar--each connected by the machinations of this sinister doppelganger.

A collection of original stories spanning the popular series' twenty-year history includes contributions by such authors as Christopher L. Bennett, David McIntree, and Keith R. A. DeCandido. Original.

An enemy so intractable that it cannot be reasoned with. The entire race thinks with one mind and strives toward one purpose: to add our biological distinctiveness to their own and wipe out individuality, to make every living thing Borg. In over two centuries, the Federation has never encountered a greater threat. Twice Starfleet assembled and threw countless starships to stand against them. The Borg were stopped, the price paid in blood. Humanity breathed a sigh of relief, assuming it was safe. And with the destruction of the transwarp conduits, the Federation believed that the killing blow had finally been struck against the Borg. Driven to the point of extinction, the Borg continue to fight for their very existence, for their culture. They will not be denied. They must not be stopped. The old rules and assumptions regarding how the Collective should act have been dismissed. Now the Borg kill first, assimilate later. When the Enterprise manages to thwart them once again, the Borg turn inward. The dark places that even the drones never realized existed are turned outward against the enemy they have never been able to defeat. What is revealed is the thing that no one believed the Borg could do.

Serving as the sequel to Gene Roddenberry's original television series, Star Trek: The Next Generation pushed the boundaries of the "final frontier." At the same time, the show continued the franchise's celebrated exploration of the human experience, reflecting current social and political events. *ST:TNG* became immensely successful, spawning four feature films and several television spin-offs. This collection of new essays explores both the series' characters and its themes. Topics include the Federation's philosophy concerning technocracy, sexuality and biopolitics; foreign policy shifts in the Prime Directive; key characters including Jean-Luc Picard, Data, Deanna Troi, Tasha Yar; and Klingon martial arts, music, and history.
