On a sun-filled January day, running back Terrell Davis stood atop a fire truck that slowly wound through downtown Denver during the Broncos' Super Bowl victory parade while 650,000 raucous fans were chanting "TD! TD! TD!" It was a moment of exhilaration and accomplishment for Terrell, whose record-setting, three-touchdown performance against the Green Bay Packers earned him the Super Bowl XXXII MVP. As he waved and gave the Mile High Salute, Terrell couldn't help but think of how unbelievable it all was, how it had taken so much to get to this shining moment. "If I were to jump outside my body and get a chance to read my life story, I would say,

'Man, that's amazing.' I've never heard, seen, or read a story like this--never." Terrell had faced hurdles that make carrying a football seem easy in comparison. There were blinding migraine headaches that had haunted him from the age of seven and almost removed him from the Super Bowl; a capricious father, who toughened Terrell in unorthodox ways, yet helped mold him into the person and player he is today; an arrest in college that could have cost him everything he ever wanted; a contentious relationship with his head coach at the University of Georgia that made him more determined than ever. At Lincoln High School, before being switched to fullback during his senior year, Terrell was a nose guard, attracting scant attention from colleges. At Long Beach State, his college of choice, the football program folded two seasons after Terrell arrived. At Georgia, Terrell saw his stock and reputation almost irreparably damaged, all leading to him becoming the 196th player and 21st running back selected in the 1995 NFL draft. Finally, in his rookie year with the Broncos, he battled from being a sixth-string running back to starter in the span of only one summer. Not since his Pop Warner days, when he was known as "Boss Hogg," was he thought of as a go-to guy, and now, here he was, one of the NFL's top players. TD: Dreams in Motion is a candid and surprising autobiography, unlike any sports book. It takes you on a journey through Terrell's life and into his mind and heart. It explains how Terrell has been able to maintain the edge that others have lost. It spells out the origins of the Mile High Salute that became a nationally recognized sports symbol and celebration. It discusses the unique relationship he shares with his mother, a remarkable and compassionate woman. Perhaps most important, TD: Dreams in Motion is inspirational. It helps you understand why Terrell has been able to persevere while others he has known have veered off the road. Terrell will overwhelm you not with his moves on the

football field, but with his words on the page. Searing and gut-wrenching, lighthearted and funny, honest and real, this is Terrell Davis's own story, the memoirs of a champion. Coach Shanahan knows about achieving big goals. In three years, he has transformed the Denver Broncos from a "mediocre", "aging" franchise into the most feared powerhouse in the league, with back-to-back Super Bowl victories in 1998 and 1999 to prove it. Now, in "Think Like a Champion" Mike Shanahan opens his playbook to show the X's and O's of winning, a detailed game plan to help you storm the field of life with foolproof strategies, confidence, and the indomitable will to win. From preparation and sacrifice to competition and leadership, his practices of success are simple yet challenging. Everything in Mike Shanahan's life has prepared him to write this powerful book. Armed with his innovative vision, you can improve your chances on Game Day-or any day of the week.

Beginning in the 1830s, the white actor Thomas D. Rice took to the stage as Jim Crow, and the ragged and charismatic trickster of black folklore entered--and forever transformed--American popular culture. *Jump Jim Crow* brings together for the first time the plays and songs performed in this guise and reveals how these texts code the complex use and abuse of blackness that has characterized American culture ever since Jim Crow's first appearance. Along with the prompt scripts of nine plays performed by Rice--never before published as their original audiences saw them--W. T. Lhamon Jr. provides a reconstruction of their performance history and a provocative analysis of their contemporary meaning. His reading shows us how these plays built a public blackness, but also how they engaged a disaffected white audience, who found in Jim Crow's sass and wit and madcap dancing an expression of rebellion and resistance against the oppression and confinement suffered by ordinary people of all colors in

antebellum America and early Victorian England. Upstaging conventional stories and forms, giving direction and expression to the unruly attitudes of a burgeoning underclass, the plays in this anthology enact a vital force still felt in great fictions, movies, and musics of the Atlantic and in the jumping, speedy styles that join all these forms.

Through innovative readings of travelogues and other nonfiction films exhibited in the United States between 1907 and 1915, Jennifer Lynn Peterson offers new insights into the aesthetic and commercial history of early cinema.

In the twenty-first century there is increasing global recognition of pain relief as a basic human right. However, as Susan Honeyman argues in this new take on child pain and invisible disability, such a belief has historically been driven by adult, ideological needs,

whereas the needs of children in pain have traditionally been marginalised or overlooked in comparison. Examining migraines in children and the socially disabling effects that chronic pain can have, this book uses medical, political and cultural discourse to convey a sense of invisible disability in children with migraine and its subsequent oppression within educational and medical policy. The book is supported by authentic migraineurs' experiences and first-hand interviews as well as testimonials from a range of historical, literary, and medical sources never combined in a child-centred context before. Representations of child pain and lifespan migraine within literature, art and popular culture are also pulled together in order to provide an interdisciplinary guide to those wanting to understand migraine in children and the identity politics of disability more fully. *Child Pain, Migraine, and Invisible Disability* will appeal to scholars in childhood studies, children's rights, literary and visual culture, disability studies and medical humanities. It will also be of interest to anyone who has suffered from migraines or has cared for children affected by chronic pain.

In the summer of 1860, more than fifty years after the United States legally abolished the international slave trade, 110 men, women, and children from Benin and Nigeria were brought ashore in Alabama under cover of night. They were the last recorded group of Africans deported to the United States as slaves. Timothy Meaher, an established Mobile businessman, sent the slave ship, the *Clotilda*, to Africa, on a bet that he could "bring a shipful of niggers right into Mobile Bay under the

officers' noses." He won the bet. This book reconstructs the lives of the people in West Africa, recounts their capture and passage in the slave pen in Ouidah, and describes their experience of slavery alongside American-born enslaved men and women. After emancipation, the group reunited from various plantations, bought land, and founded their own settlement, known as African Town. They ruled it according to customary African laws, spoke their own regional language and, when giving interviews, insisted that writers use their African names so that their families would know that they were still alive. The last survivor of the Clotilda died in 1935, but African Town is still home to a community of Clotilda descendants. The publication of *Dreams of Africa* in Alabama marks the 200th anniversary of the abolition of the transatlantic slave trade. Winner of the Wesley-Logan Prize of the American Historical Association (2007)
