

Wild Babies

Make whimsical wild animals spring to life with a boldly colored board book encouraging babies' imaginative play. Poke your fingers through the holes of this boldly colored board book to make wiggly legs for eight wonderful wild animals. Run with a zebra, doze with a hippo, splash in the swamp with a crocodile--but watch out for that lion! With fun sound words, bright illustrations, and finger holes to explore, this hands-on story for the littlest of listeners has all the ingredients to spark a love of books. Mealtimes can be wild, especially when animal babies are involved! Sometimes messy, often chaotic and always exhausting, they offer perfect bonding opportunities – of a kind! Courtney's wacky style and eye for detail perfectly illustrate the fun, laughter and love shared each day in family life.

This read-aloud is a charming story about a baby's adventure in her backyard as she keeps dropping her blanket and finding it again. Her travels create a mystery for young children and support the early geometry of navigation and shape recognition.

She's too young for him. Pregnant. And irresistible. Bodyguard Sterling Vance's job becomes personal when the daughter of a friend, Angelina McFee, admits she's being stalked by her ex. Angelina is knocked up and oh yeah, temporarily without a place to live. Then her daddy's seemingly conservative friend offers to help with her stalker problem...by moving her into his home so he can guard her and her unborn baby. With his body. Only problem with that scenario? Angelina wants Sterling to use his body all right, but in a carnal fashion not suitable for his prim and proper lifestyle. Until she messages him incognito on a dating site and discovers Sterling can get down and dirty in ways she never imagined. Tie optional. But falling for him? That's not optional at all. Sterling wants to build a family with Angelina and longs to be a father to her baby. But the woman he loves is in danger and the secrets she's keeping—both in and out of bed—may jeopardize both her and her child's lives. Author's note: Shielding His Baby has a HEA, no cheating and no cliffhanger! Author's note part deux: Shielding His Baby was previously published as Proving His Worth by Cari Quinn through Samhain Publishing in 2014. This edition has a new cover and has been lightly re-edited.

Bestselling author and photographer Traer Scott captures the magic and wonder of a young animal's first weeks of life in this heartwarming collection of photographs. Featuring portraits of more than 30 baby animals, Wild Babies provides a glimpse into the rarely seen world of newborn creatures. From rambunctious little kangaroos and fluffy fox cubs to a wide-eyed elephant seal pup and a tiny painted turtle, these playful images are paired with engaging text that highlights the remarkable moments in wild infants' first days as they learn to eat, walk, swim, and fly. Animal lovers will delight in these close-up shots and fun trivia celebrating the unique personalities of irresistibly cute creatures navigating their way out into the world for the very first time.

While his mother cleans house, rambunctious baby Ben sets sail in a wooden box and has many adventures.

Young readers learn about the characteristics, behavior, diet, and life cycle of elephants as they follow Liza, a real-life baby elephant in the African desert.

The author-illustrator of *The Rabbit Listened* and *Good Dog* captures the incredible bond between parent and child with this exuberant picture book about a carefree young ape who goes barreling through the jungle...and the worried mom who must chase after.

As her baby goes on a mad dash through the jungle, it's up to mama to make sure the curious little orangutan doesn't get into too much trouble—like dancing on a bear, bouncing on an elephant, or even pulling on a leopard's tail. But when you have a wild baby, life is full of surprises! With a simple, playful rhyme, this adorable and humorous story illustrates the oftentimes chaotic but always loving bond between parent and child. Wild Baby is sure to capture the heart of fans of Amy Krouse Rosenthal, Smriti Prasadam-Halls, and anyone with a wild child of their own!

In this second book in the West Coast Wild series, readers will meet the baby animals born in the pristine wilderness of the Pacific west coast, including land and marine mammals, fish, birds and amphibians. It's spring on the Pacific west coast and new life is stirring! Wild babies are being born — in the ocean, on the shore and deep inside the ancient rainforest. Wolf pups, cougar kittens, bear cubs and whale calves all begin their life in the pristine wilderness of this magnificent place. Young readers will meet a fascinating group of fourteen wild baby animals — including land and marine mammals, fish, birds and amphibians — and learn about the special bonds between offspring and parents, and how the newborns move toward independence. Readers will see an extraordinary community of animals thriving in an interconnected web of life. In this second book in the West Coast Wild series, Deborah Hodge takes readers through the spectacular land and seascapes of the Pacific Rim region, introducing familiar animals such as sea otters and eagles, and lesser known species such as pelagic cormorants and rufous hummingbirds. Karen Reczuch's beautiful illustrations are detailed and lifelike, and convey a lovely sense of warmth between the wild parents and their young. The text and art have been carefully checked for scientific accuracy. Includes a note about the Pacific west coast and the need to preserve its rare and awe-inspiring wilderness regions, as well as a list for further reading and exploration. Key Text Features further reading illustrations informational note author's note Correlates to the Common Core State Standards in English Language Arts: CCSS.ELA-LITERACY.RL.1.5 Explain major differences between books that tell stories and books that give information, drawing on a wide reading of a range of text types.

What do grizzly bear cubs eat? Where do baby raccoons sleep? And how does a baby otter learn to swim? Every baby mammal, from a tiny harvest mouse "pinky" to a fierce lion cub, needs food, shelter, love, and a family. Filled with illustrations of some of the most adorable babies in the kingdom, *Born in the Wild* is an awww-inspiring look at the traits that all baby mammals share and proves that, even though they're born in the wild, they're not so very different from us, after all! This non-fiction picture book by Lita Judge is sure to appeal to budding naturalists and animal lovers.

Panda lovers will enjoy following a giant panda and her cub in this engaging Science Reader from Step into Reading. This book's "up close and personal" photographs of pandas and its array of panda facts will captivate young nonfiction lovers. Readers will learn how one mother and her cub are being protected and raised in a Chinese panda reserve, which seeks to help this vulnerable species survive. In fact, ChiDa, the panda cub, is being prepared to be released into the wild--once she is old enough and has learned important life skills from her mom! Young readers will find themselves rooting for ChiDa while decoding the simple text and gaining confidence in their reading. Great for proficient or reluctant readers. Step 3 Readers feature engaging characters in easy-to-follow plots about popular topics, for children who are ready to read on their own.

Encourages readers to see baby animals as they live in the wild, and to find the other animals that are hiding in the pictures.

Bathtimes can be wild, especially when animal babies are involved! Sometimes messy, often chaotic and always exhausting, they offer perfect bonding opportunities – of a kind! Courtney's wacky style and eye for detail perfectly illustrate the fun, laughter and love shared each day in family life.

Born To Be Wild! Did you know that... opossums give birth to fifty tiny babies at once? Baby elephants weight over 200 pounds at birth? a newborn giraffe is as tall as a person? Learn everything you ever wanted to know about exotic, irresistible baby animals in this fascinating book -- filled with full-color photographs. Renowned science writer Seymour Simon takes on parenthood! In lucid prose he describes how thirteen different wild animals raise their young. Stunning photographs help place each animal in its distinct habitat, from penguins in the Antarctic to kangaroos in the outback. But whether it is an enormous polar bear fiercely protecting her cubs, or a sleek alligator swimming away right after her babies hatch, Seymour Simon shows us what is unique and important about each animal.

A sweet little book for kids about baby animals.

Baby Ben gets into one difficulty after another, from which Mama rescues him--but not for long Dive into the Wild Wicked Wonderful world of the animal kingdom with the Top 10: Dads. Written with a high interest level to appeal to a more mature audience and a lower level of complexity with clear visuals to help struggling readers along. Considerate text includes tons of fascinating information and wild facts that will hold the readers' interest, allowing for successful mastery and comprehension. A table of contents, glossary with simplified pronunciations, and

index all enhance comprehension.

Celebrate the Pacific west coast with this gorgeous nature alphabet book. This stunning nature alphabet book explores the fascinating ecosystem of the Pacific west coast — a magnificent area that combines an ancient rainforest, a rugged beach and a vast, open ocean, and where whales, bears, wolves, eagles and a rich variety of marine species thrive in an interconnected web of life. Author Deborah Hodge has spent more than forty years on the west coast, frequently visiting the Pacific Rim region, and she knows it intimately. From A to Z she describes in vivid language the rainforest, ocean and beach, and a great variety of animals that a child might see walking along the shore — from tiny sea jellies to inquisitive sandpipers to leaping orcas. Illustrator Karen Reczuch brings her remarkable talent to the book, and has created image after image that is simply breathtaking. The text and art have been carefully checked for scientific accuracy. Includes a note about the Pacific west coast and suggestions for exploring the region and further reading. Correlates to the Common Core State Standards in English Language Arts: CCSS.ELA-LITERACY.RL.K.7 With prompting and support, describe the relationship between illustrations and the story in which they appear (e.g., what moment in a story an illustration depicts).

Uses simple text and photographs to capture baby animals as they move about in the wilderness, along with sections that provide brief facts about each animal and a sketch of its footprints.

Bobcat and squirrel kittens, batlings, bear cubs, and other wild animal babies learn to survive in their canyon environment.

From Australia to Asia to Africa to Antarctica, the Cat in the Hat travels the globe in search of wild animal babies.

Pictures of various animals include textures for the reader to touch.

A touching tale of a grandmother and her granddaughter exploring and cherishing the natural world. Words, the woods, and the world illuminate this quest to save the most important pieces of our language—by saving the very things they stand for. When Mimi finds out her favorite words—simple words, like apricot, blackberry, buttercup—are disappearing from the English language, she elects her granddaughter Brook as their Keeper. And did you know? The only way to save words is to know them. • With its focus on the power of language and social change, *The Keeper of Wild Words* is ideal for educators and librarians as well as young readers. • For any child who longs to get outside and learn more about nature and the environment • A loving portrait of the special relationship that grandparents have with their grandchildren For children who love such books as *Outside Your Window: A First Book of Nature*, *And Then It's Spring*, and *Finding Wild*. Brooke Smith is a poet and children's book author. She lives in Bend, Oregon, at the end of a long cinder lane. Brooke writes daily from her studio, looking at the meadow and many of the wild words she cherishes. Madeline Kloepper is a Canadian artist with a Bachelor of Fine Arts and Major in Illustration from Emily Carr University of Art and Design. Her work is influenced by childhood, nostalgia, and the relationships we forge with nature. She lives in Prince George, British Columbia.

As informative as it is lovely, *Homes in the Wild* is an adorable nonfiction picture book from author/illustrator Lita Judge that shows that wild creatures—from beavers to bobcats, and sloths to squirrels—aren't so different from us after all. Just like us, every baby animal has a home. Some live in complex burrows deep underground, others in simple nests high in the treetops. But all homes, regardless of where they are or how they're built, serve the same purpose: providing shelter where a baby can eat, sleep, learn, and stay safe while growing up. Animal lovers will delight in this gorgeously illustrated peek inside the homes—from burrows deep underground to nests high in the trees—where baby animals live and grow.
